COMMERCIAL ITEM DESCRIPTION

LAMP, INCANDESCENT (SEALED BEAM, TRADE NO. 4651)

The General Services Administration has authorized the use of this commercial item description.

This description covers a rectangular sealed beam, high beam headlight for a four headlamp system, type 1A1.

Salient characteristics:

Rectangular bulb - 100 mm x 165 mm

Design volts - 12.8

Watts - 50

Two (2) contact lugs

Filament designation = C-6

Rated average lab life, at 14.0 volts, in hours - 200

The rectangular headlamp shall be in accordance with the Society of Automotive Engineers (SAE) Standards J571 - Dimensional Specifications for Sealed Beam Headlamp Units and J573 - Lamp Bulbs and Sealed Beam Headlamp Units.

The issues of SAE Standards J571 and J573 in effect on the date of solicitation shall be used to determine compliance with stated requirements.

Workmanship. The lamp shall not have bent contacts, slight or complete discoloration of the lens or reflective coating, small bubbles in the glass, cracked glass, peeled reflective coating, and open or shorted filaments.

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

Preservation, packaging, packing, labeling, and marking. The preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.

NOTE: When this commercial item description is used for procurement, the commercial item certification clause must appear in the solicitation.

SAE Standards J571 and J573 are available from the Society of Automotive Engineers, 400 Commonwealth Drive, Warrendale, PA 15096.

DoD has determined that no military activity has an official interest in this commercial item description.
