COMMERCIAL ITEM DESCRIPTION

LAMP, INCANDESCENT
(TUNGSTEN-HALOGEN, Q1500T3/CL)

The General Services Administration has authorized the use of this commercial item description.

This description covers a tubular tungsten-halogen lamp of 208 volts.

Salient characteristics:

T-3 (9.5 mm) clear heat resistant glass bulb

Recessed single contact base

Filament design = C-8

Maximum overall length = 10-1/16 inches (255.6 mm)

Average rated life in hours - 2,000

Approximate lumens, initial - 33,000; mean - 32,000

Burn lamp horizontal

Lamp designation Q1500T3/CL or 1500T3Q/CL

The lamp shall be in accordance with ANSI C78.260

Workmanship. The lamp shall have no defects that affect serviceability or appearance.

The issue of ANSI C78.260 in effect on the date of solicitation shall be used to determine compliance with these requirements.

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

Preservation, packaging, packing, labeling, and marking. The preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.

NOTES: NSN 6240-00-944-6958. When this commercial item description is used for procurement, the commercial item certification clause must appear in the solicitation.

ANSI Standard C78.260 is available from the American National Standards Institute, Inc., 1430 Broadway, New York, NY 10018.

DoD has determined that no military activity has an official interest in this commercial item description.
