COMMERCIAL ITEM DESCRIPTION

BATTERY FILLER, GRAVITY

The General Services Administration has authorized the use of this Commercial Item Description for all federal agencies.

1. SCOPE

1.1 Scope. This commercial item description (CID) covers battery fillers intended for dispensing distilled water to the cells of storage batteries.

2. CLASSIFICATION

2.1 Classification. The battery filler shall be of the following sizes, as specified (see 7.1).

Size 1 - 2 quart (1.89 L) minimum capacity
Size 2 - 4 quart (3.78 L) minimum capacity

3. SALIENT CHARACTERISTICS

3.1 Materials. The battery filler shall be molded from a natural or synthetic rubber or a thermoplastic material.

3.2 Construction. The battery filler shall consist of an enclosed container with an integral lifting handle and pouring spout at the top. The spout shall have a removable control valve assembly which limits the addition of water to the battery cells to prevent overfilling. The empty filler shall have a weight no greater than 4 lb (1.81 kg).

3.3 Marking. The battery filler shall be indelibly marked or stamped with the manufacturer's name or trademark.

3.4 Measurement system. The values stated in inch-pound units are to be regarded as the standard. The metric values stated in parentheses are for informational purposes only.

3.5 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Engineering Branch (7FXEE), 819 Taylor St., Fort Worth, TX 76102.

request should be made to the contracting officer to determine if the product is acceptable.

3.6 Workmanship. The battery filler shall be free from any defects, imperfections, or material that would adversely affect performance, serviceability, or appearance, or cause any undesirable effects during use. The filler shall contain the specified amount of water without leaking.

4. REGULATORY REQUIREMENTS

4.1 Regulatory requirements. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

5. QUALITY ASSURANCE PROVISIONS

5.1 Product conformance. The products provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, specifications, standards, and quality assurance practices, and be the same product offered for sale in the commercial market. The Government reserves the right to require proof of such conformance.

6. PACKAGING

6.1 Packaging. Preservation, packing, and marking shall be as specified in the contract or order.

7. NOTES

7.1 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents (if applicable).

a. Title, number, and date of this CID.
b. Size.
c. Preservation, packing, and marking desired.

7.2 Illustration. Figure 1, which depicts the battery filler, is for the convenience of identification. It is not intended to preclude the purchase of battery fillers of similar design which are otherwise in accordance with the requirements of this CID.

7.3 National Stock Numbers (NSNs). The following is a list of NSNs assigned which correspond to this CID. The list may not be indicative of all possible NSNs associated with the CID.

| NSN | Size | Capacity |
|---|---|---|
| 6140-00-752-2184 | 1 | 2 quarts (1.89 L) |
| 6140-00-635-3824 | 2 | 4 quarts (3.78 L) |
