MILITARY SPECIFICATION

CASE, SCRIBING POINTS AND PARTS:

PLASTIC, INDEXED

This specification is approved for use by the Mobility Equipment Research and Development Command, Department of the Army, and is available for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers two types of plastic cases which protect and identify scribing points and parts.

1.2 Classification. The cases shall be of the following types as specified (see 6.2):

Type I - Case, scribing points and parts: plastic, indexed.

Type II - Case, mechanical dotter points and parts: plastic, indexed.

2. APPLICABLE DOCUMENTS

2.1 Issues of documents. The following documents of the issue in effect on date of invitation for bids or request for proposal form a part of this specification to the extent specified herein.

FSC 6675

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: US Amry Mobility Equipment Research and Development Command, ATTN: DRDME-DS, Fort Belvoir, VA 22060 by using the self-addressing Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

(Copies of specifications and standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

2.2 Other publications. The following document forms a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposal shall apply.

NATIONAL BUREAU OF STANDARDS

Handbook H28 - Screw-Thread Standards for Federal Services.

(Application for copies should be addressed to the Superintendent of Documents, Government Printing Office, Washington, DC 20402.)

3. REQUIREMENTS

3.1 Description. The cases shall be as shown on Figures 1 and 2 and as specified herein.

3.2 Material. Material shall be as specified herein. Materials not specified shall be selected by the contractor and shall be subject to all provisions of this specification (see 6.3).

3.2.1 Plastic. Plastic sheet shall conform to L-P-391, Item A, Type I, Grade A.

3.3 Threaded parts. All threads shall be in accordance with NBS Handbook H28.

3.4 Screw. The hexagon headed shoulder screw shall be in accordance with MS51975-2.

3.5 Spring. The helical compression spring shall be in accordance with MS24585-C220.

3.6 Ball bearing. The ball bearings shall be in accordance with MS9461-03.

3.7 Numerals and markings. Numerals and markings shall be in accordance with MIL-P-15024, Type B, direct marking. The characters shall be

Check the source to verify that this is the current version before use.

.12 inches (3.05 millimeters (mm)) high, engraved or molded, at the option of the contractor, and shall be filled with ink conforming to TT-I-1795, Type I, Color Black conforming to FED. STD. No. 595, No. 37038.

3.8 Identification marking. The case shall be identified in accordance with MIL-STD-130. The markings shall be applied to the outside diameter or bottom of the case.

3.9 Workmanship. The plastic parts shall be free of all surface defects or bubbles which might impair the serviceability of the case.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Component and material inspection. The contractor is responsible for insuring that components and materials used are manufactured, examined, and tested in accordance with referenced specifications and standards, as applicable.

4.2 Classification of inspections. The inspection requirements specified herein are classified as follows:

(a) Quality conformance inspection (see 4.3).
(b) Inspection of packaging (see 4.5).

4.3 Quality conformance inspection.

4.3.1 Sampling for examination. Sampling for examination shall be in accordance with MIL-STD-105.

4.3.2 Examination. Samples selected in accordance with 4.3.1 shall be examined as specified in 4.4.1. AQL shall be 2.5 percent defective.

4.4 Inspection procedure.

4.4.1 Examination. The cases shall be examined as specified herein for the following defects:

101. Dimensions not as specified.
102. Materials not as specified.
103. Missing components or improper assembly.
104. Markings missing, incomplete, or illegible.
105. Workmanship not as specified.

4.5 Inspection of packaging. The preservation, packing, and marking for Level A or Level B shall be examined to determine compliance with the quality assurance provisions of MIL-S-3534. The preservation, packing, and marking for Commercial shall be examined to determine compliance with MIL-STD-1188.

5. PACKAGING

5.1 Preservation. Preservation shall be Level A or Commercial, as specified (see 6.2).

5.1.1 Level A. Each complete case shall be preserved in accordance with the Level A requirements of MIL-S-3534.

5.1.2 Commercial. Each complete case shall be preserved in accordance with MIL-STD-1188.

5.2 Packing. Packing shall be Level A, Level B, or Commercial, as specified (see 6.2).

5.2.1 Level A. Cases, preserved as specified in 5.1, shall be packed in accordance with the Level A requirements of MIL-S-3534.

5.2.2 Level B. Cases, preserved as specified in 5.1, shall be packed in accordance with the Level B requirements of MIL-S-3534.

5.2.3 Commercial. Cases, preserved as specified in 5.1, shall be packed in accordance with MIL-STD-1188.

Check the source to verify that this is the current version before use.

5.3 Marking.

5.3.1 Military. Marking for military packaging shall be in accordance with MIL-STD-129.

5.3.2 Commercial. Marking for Commercial packaging shall be in accordance with MIL-STD-1188.

6. NOTES

6.1 Intended use. The cases are intended for use in the storage and protection of scribing points and scribing-tool parts used in color-separation drafting.

6.2 Ordering data. Procurement documents should specify the following:

(a) Title, number, and date of this specification.
(b) Type of case required (see 1.2).
(c) Degree of preservation and degree of packing required (see 5.1 and 5.2).

6.3 Recycled material. It is encouraged that recycled material be used, when practical, as long as it meets the requirements of this specification (see 3.2).

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
