JAN-P-1014

22 MARCH 1949

NATIONAL MILITARY ESTABLISHMENT SPECIFICATION

PAPER, MUSIC WRITING

This specification was approved by the Departments of the Army, the Navy, and the Air Force for use of procurement services of the respective Departments, and supersedes the following specification:

Quartermaster Corps
Tentative Specification
PQD 505
10 Mar. 1945

This specification consists of this cover sheet and Quartermaster Corps Tentative Specification PQD 505 dated 10 March 1945, attached hereto, without modification.

Copies of this specification may be obtained from the Specifications and Quality Control Section, Research and Development Laboratories, Philadelphia Quartermaster Depot, 2800 South Twentieth Street, Philadelphia 45, Pa.

When a request for this specification is received by a supplying activity it will be necessary to attach this cover sheet to the pertinent specification before issue.

D. GENERAL REQUIREMENTS

D-1. The music writing paper shall be a good quality, white ledger paper manufactured of solid bleached sulphate or sulphite pulp or a mixture of rag and bleached chemical wood pulp in accordance with good commercial practice. It shall be well formed and well sized to give a good pick-strength and a minimum curl. It shall be stiff enough to stand in a music rack and shall have a flat English finish suitable for both pencil or pen and ink. Erasing quality of the music writing paper shall be such as to permit redrawing in ink where erasures are made.

D-2. The paper shall be printed with black ink in such a way that the printed lines are resistant to erasure. The name of the supplier shall be printed on each sheet of music writing paper.

E. DETAIL REQUIREMENTS

E-1. Type I.- Type I music card shall be approximately 5½" x 7" in size and shall contain 10 staves neatly printed on each side with staves running parallel to the 7" dimension of the card. The card shall have an unprinted side and bottom border of approximately 1/2 inch and an unprinted border at the top of 3/4 inch. The distance between staves shall be approximately 1/4" and the height of each staff shall be 7/32 inch. The card shall be made of index bristol having a thickness of not less than 0.012 inches.

E-2. Type II.- Type II music writing paper shall be approximately 13½" x 10½" in size and shall be folded to a size approximately 6-3/4" x 10½". It shall contain 12 staves neatly printed on each of the four pages with staves running parallel to the 6-3/4" folded dimension. The staves shall extend to approximately 1/2" of the side edges of the pages. Each sheet shall have an unprinted border at the top of not less than 1 inch. The distance between staves shall be approximately 1/2 inch and the height of each staff shall be 9/32 inch. The paper shall have a basis weight of approximately 28 pounds per ream, (17 x 22 - 500).

E-3. Type III.- Type III music writing paper shall be approximately 19" x 12-1/2" in size and shall be folded to a size approximately 9-1/2" x 12-1/2". It shall contain 12 staves neatly and boldly printed on each of the four pages with staves running parallel to the 9-1/2" folded dimension. The staves shall extend to approximately 1/2" of the side edges of the pages. Each sheet shall have an unprinted border at the top of not less than 1-1/4 inches. The distance between staves shall be approximately 9/16 inch and the height of each staff shall be 11/32 inch. The paper shall have a basis weight of approximately 28 pounds per ream, (17 x 22 - 500).

E-4. Type IV.- Type IV music writing paper shall be approximately 21" x 13½" size and shall be folded to a size approximately 10½" x 13½". The paper shall have a basis weight of approximately 28 pounds per ream (17 x 22 - 500). It shall contain 24 staves, each 7/32 inch high, neatly printed on each of the four pages with staves running parallel to the 10½" folded dimension. Each sheet shall have an unprinted border at the top of not less than 1 inch and shall be printed with the choirs listed below and their respective bass or treble clefs.

(Total - 24 Staves)

F. METHODS OF INSPECTION AND TESTS

F-1. The paper shall be subject to inspection by authorized government inspectors. When inspection is conducted at the contractor's plant, tests shall be conducted by the contractor, under the supervision of the authorized government inspector.

F-2. Previous acceptance or approval of materials in the course of manufacture shall in no case be construed as a guarantee of the acceptance of the finished product.

F-3. The physical tests on the music writing paper and packaging materials shall be made in accordance with the methods of the American Society for Testing Materials (ASTM) and the Technical Association of the Pulp and Paper Industry (TAPPI).

G. PACKAGING, LABELING, PACKING AND MARKING

G-1. Packaging.- One-quarter ream (125 cards or folded sheets) of music writing paper shall be completely wrapped in a sheet of kraft paper having a basis weight of not less than 30 pounds per ream (24 x 36 - 500) or paper of equivalent or better strength. The package shall be sealed with glue or gummed tape.

G-2. Labeling.- The package of 125 cards or folded sheets of music writing paper shall be plainly labeled to show the following:

Quantity
Nomenclature
Stock Number
Name and Address of Supplier

G-3. Packing.-

G-3a. Domestic.- Unless otherwise specified, the product shall be packed in commercial containers acceptable to the carrier for safe transportation at the lowest rate to the point of delivery, and so constructed as to enable storage and reshipment in the original containers.

Check the source to verify that this is the current version before use.

G-3b. Overseas.- Music writing paper, of one type only and in the quantities shown in Table I, shall be packed, sealed and strapped in a fibreboard box, Style F.T.C. compliance symbol V3c or V3s, in conformance with all requirements of specification JAN-P-108. Contents shall be protected by a waterproof barrier-material conforming to specification JAN-P-125, Type L2 or M, by wrapping prior to packing, by lining the box, or by placing in a prefabricated bag. The barrier shall be sealed securely at all seams and closures with a waterproof adhesive so as to produce a watertight package.

TABLE I

Type of Music Writing Paper	No. of 1/4 Ream Packages for Shipping Container
I	40
II	24
III	14
IV	12

G-4. Marking.- The shipping containers shall be marked in accordance with specification OQMG No. 94.

H. NOTES

H-1. The contractor shall give the contracting officer sufficient notice prior to beginning the manufacture of paper under this specification so that an inspector may be assigned to supervise the execution of the contract.

H-2. Before production is commenced, unless otherwise specified in the invitation for bids, contract or order, a finished 1/4 ream shall be submitted to the contracting officer for approval.

H-3. The use of this specification wherever applicable, is mandatory upon the procuring agencies of the Army.

NOTICE: When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility nor any obligation whatsoever; and the fact that the Government may have formulated, furnished or in any way supplied the said drawings, specifications or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.
