MIL-M-81260A(AS)
Amendment 1
29 October 1971

MILITARY SPECIFICATION

Manual, Technical: Aircraft/System/
Equipment Maintenance

This amendment forms apart of Military Specification MIL-M-81260A(AS) dated 28 May 1971.

Page 18, paragraph 3.4.4.3.5 - delete and substitute

"3. 4.4.3.5 Troubleshooting. Troubleshooting data correlated with operational checkout procedures shall be provided to isolate, identify, and correct malfunctions in integrated systems that are within organizational maintenance capability. These data shall parallel the requirements in 3.4. 5.4.2 as it applies to System Integrated Maintenance. "

Page 19, paragraph 3.4.5.4.2- lines 10 and 11 - delete the following sentence:

"Data shall be provided for all equipment capable of being repaired on board the aircraft regardless of what may be provisioned. "
