6.2, delete and substitute:

"6.2 Test vector table. The table V test vectors, which form a part of this detail specification, are not printed herein due to their extreme length and complexity. Table V is a software control program of the sequence of vectors needed for driving the devices represented in this detail specification sheet, as part of the inspection required by table II herein. Table V is only generated when a qualified source exists for this specification. When a qualified source exists, a single hard copy printout of table V is maintained for reference purposes only by the Defense Electronic Supply Center (DESC). DESC-ECS may be consulted for information on obtaining a copy."

The margins of this amendment are marked with an asterisks to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.
