MIL-R-25085C (USAF)
AMENDMENT 3
19 March 1982
SUPERSEDING
AMENDMENT 2
9 MAY 1980

MILITARY SPECIFICATION
RACK, BOMB AIRCRAFT, ELECTRIC, TYPE MB-3A/A

This amendment forms a part of Military Specification MIL-R-25085C (USAF) dated 3 June 1959, and is approved for use by the Department of the Air Force and is available for use by all Departments and Agencies of the Department of Defense.

PAGE 1

2.1:

*Under "SPECIFICATION" "FEDERAL":

Delete:	QQ-Z-325	Zinc Coating, Electrodeposit
Add:	QQ-P-416	Plating Cadium, Electrodeposit

PAGE 3

Section 3, Under "REQUIREMENTS"

* Paragraph 3.3.1. Change "... in accordance with QQ-Z-325" to read "... in accordance with QQ-P-416."

Add new paragraph:

"3.3.4 Materials: Recycled and recovered raw materials should be used to the maximum extent possible in lieu of virgin raw materials as long as these materials do not jeopardize the intended use and fully comply with the contract requirements. Materials used shall be free from defects which would adversely affect the performance or maintainability of individual components or the overall assembly. Materials not specified herein shall be of the same quality used for the intended purpose in commercial practice. None of the above shall be interpreted to mean that the use of used or rebuilt products will be allowed."

PAGE 4

Paragraph 3.5.4. Change "... shall conform to MIL-3278 or MIL-L-7870" to read "... shall conform to MIL-L-7870."

PAGE 6

Add the following new paragraph:

FSC 1095

Check the source to verify that this is the current version before use.

"3.6.5.1 Safety Pin. The safety pin shall provide the means for preventing the bomb rack from unlatching when the linkage is released.

PAGE 10

Add the following new subparagraph:

"3.6.1.2.f. A test store of not less than 1750 pounds shall be latched to the bomb rack. With the safety pin in position the release mechanism shall be triggered. When released the load shall be retained in the latched condition. A pull force of not less than 150 pounds shall be required to remove the safety pin and remove the load."

* Identification of Changes. The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no reliability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment."

Change the Preparing Activity and Custodian to:

Custodian:

Air Force - 99

Preparing Activity:

Air Force - 99
