...ordance with Federal Specification DD-...s A.

...all be of the Kolle design in accordance with Federal ...ecification NNN-F-240, Type II.

Flask shall have a flat, cylindrical shape with an oval side neck.

One flat side of the flask shall be indented at the neck in order to retain sufficient culture media.

NOTES:

1. Retentive capacity is determined by placing the flask on its side with the constriction down.
2. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements as specified herein.
3. For design feature purposes this standard takes precedence over procurement document referenced herein.
4. Referenced documents shall be of the issue in effect on date of invitations for bid.
