MS36064-7	1000	32

MATERIAL: Borosilicate glass in accordance with ASTM E438, Type I, Class A.

DESIGN: Flasks shall be in accordance with Federal Specification NNN-F-240, Type IV, Class 2, Style 11. Flask shall have a broad flat bottom and conical sides terminating in a neck having tapered ground joint. Each flask shall be permanently and legibly marked with manufacturer's name or trademark and capacity. Each flask shall have a marking area located in accordance with commercial practices. Pennyhead stoppers shall be in accordance with Federal Specification DD-S-750, Type I, Composition I, Grade A.

NOTES:

1. Flasks are supplied with stoppers.
2. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.
3. For design feature purposes, this standard takes precedence over procurement documents referenced herein.
4. Referenced documents shall be of the issue in effect on date of invitations for bid.
5. FSCM: 14674, 22527, and 84116.
