MILITARY SPECIFICATION

ACETAMINOPHEN ELIXIR, U.S.P.

This specification is approved for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers Acetaminophen Elixir, U.S.P.

1.2 Classification. The elixir covered by this specification shall be the following sizes:

Size 1 - 5 ml, Individually Sealed, 100s
Size 2 - 4 fl oz (118 ml), 6s
Size 3 - 1 gal (3.78 liters)

2. APPLICABLE DOCUMENTS

2.1 The following documents, of the issue in effect on date of invitation for bids or request for proposals, form a part of this specification to the extent specified herein:

SPECIFICATIONS

Federal

PPP-C-186	Containers, Packaging and Packing for Drugs, Chemicals, and Pharmaceuticals (see 6.3).

STANDARDS

Military

MIL-STD-105	Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129	Marking for Shipment and Storage.

FSC 6505

(Copies of specifications and standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposals shall apply.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, FOOD AND DRUG ADMINISTRATION

Federal Food, Drug, and Cosmetic Act and Regulations Promulgated Thereunder.

(Application for copies should be addressed to the Food and Drug Administration, Washington, DC 20204.)

U. S. PHARMACOPEIAL CONVENTION, INC.

The United States Pharmacopeia.

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

National Formulary.

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

3. REQUIREMENTS

3.1 Material. Shall be Acetaminophen Elixir and, except as specified herein, shall be in accordance with the tests, standards, and requirements of the U.S.P., including any supplements or revisions thereto. Shall contain in each 5 ml, 120 mg of Acetaminophen, within the applicable assay limits for the elixir.

3.2 Flavor and palatability. The elixir shall be palatable and pleasant to the taste with no unpleasant aftertaste. Not later than the time specified for opening of bids or receipt of proposals, the offeror shall submit to the contracting officer one unit of issue for size 1 and six (6) samples (each containing 4 fl oz) for sizes 2 and 3 of Acetaminophen Elixir representative of the product which the offeror proposes to furnish. Two (2)

Check the source to verify that this is the current version before use.

samples will be subjected to panel testing for a determination of palatability (see 4.4 Palatability Test). The remaining samples will be used by cognizant Government inspection and quality assurance activities for determining compliance of supplies furnished hereunder with the palatability requirement. Approval as to palatability of any sample submitted by the offeror will not constitute approval of the sample as to any other requirement of this specification. The requirement for submission of samples for use in determining compliance with the palatability requirement may be waived, provided the offeror states, in his bid or proposal, that the product he proposes to furnish is the same product he has offered to the purchasing activity on a previous procurement and the contracting officer determines that such product was previously procured and/or tested by the purchasing activity and found to comply with the palatability requirement.

3.3 Ingredients. The acetaminophen and alcohol entering into the manufacture of the product shall be in accordance with the tests, standards and requirements of the U.S.P., including any supplements or revisions thereto. All other ingredients entering into the manufacture of the product shall be of U.S.P. or N.F. quality or, if not included in either of these compendia, they shall be of the highest pharmaceutical grade.

3.4 Workmanship. Workmanship shall be first class throughout. The material and its containers shall be free from defects which detract from their appearance or may impair their serviceability.

3.5 Expiration dating period. The expiration dating period shall be not less than 30 months for size 1 and not less than 36 months for sizes 2 and 3.

3.5.1 Delivery. Not more than 3 months of the expiration dating period shall have elapsed at time of delivery to the Government.

4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Check the source to verify that this is the current version before use.

4.1.1 Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and, (i) as to any expiration dated item, for the expiration dating period (potency period) specified by the contractor for such item, or such longer period as may be required by regulation of any federal agency; or (ii) as to non-dated items, for not less than 3 years after delivery of the items to the Government.

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Lots. For purpose of this specification, a lot, batch or control is that single, uniform, and homogeneous quantity of the elixir, produced from one formulation, subjected to the same compounding and manufacturing operation, and filled into final containers.

4.3 Sampling. Sampling shall be conducted in accordance with MIL-STD-105.

TABLE I. Sampling

For visual examination	Inspection level	AQL (percent defective)	Unit of product
Major	S-2	1.0	Immediate container
Minor	II	2.5	Immediate container

4.3.1 Classification of defects. Examination will be conducted in accordance with the following classification of defects:

Categories and defects*

Major
101 Elixir not free from foreign matter.
102 Elixir has crystal formation.
103 Elixir not homogeneous.

Minor
201 Exterior of immediate container is not free from contents and foreign matter.
202 Label not free from defacing marks and tears.

* Inspection is not restricted to the classified possible defects listed above.

Check the source to verify that this is the current version before use.

4.4 Palatability test. A taste panel consisting of 10 members will be used to determine acceptability of samples. Samples will be prepared for testing (samples will be tested undiluted), coded, and served to panel members under controlled serving conditions, e.g., all samples will be of the same amount, and served at the same temperature; each panel member will receive an equal number of samples; the order of serving will be varied among panel members; an interval of at least five (5) minutes will elapse between successive samples and panel members will rinse their mouths with water (room temperature) after each sample; panel members will test without interference either from each other or from outsiders. The product offered shall be rated equal to or better than the Palatability Standard* when determined by the taste panel, using the following 9-point hedonic rating scale. The average rating of the sample shall be equal to or greater than the average rating of the standard, similarly prepared and tested.

1	2	3	4	5	6	7	8	9
Dislike extremely	Dislike very much	Dislike moderately	Dislike slightly	Neither like nor dislike	Like slightly	Like moderately	Like very much	Like extremely

* The Palatability Standard is available upon separate request to the contracting officer, Defense Personnel Support Center, Directorate of Medical Materiel.

4.5 Examination of preparation for delivery. An examination shall be made to determine whether the packaging, packing, and marking comply with the requirements of Section 5. Defects shall be scored as specified in Table II. Sampling shall be in accordance with MIL-STD-105. The sample unit shall be one container fully prepared for delivery. The lot shall be the number of containers offered for inspection at one time. The inspection level shall be S-2 and the acceptable quality level shall be 4.0 defects per hundred units. For labeling, the acceptance number shall be zero.

TABLE II. Examination of preparation for delivery

Examination	Defect
Containers	Not as specified.
Quantity	Quantity in interior packages and shipping containers not as specified.
Packaging and packing materials	Any component missing or damaged.
Workmanship	Inadequate application of components such as incomplete closure of container flaps, tape improperly applied, or containers distorted.
Markings	Omitted, incorrect, illegible, improper size, location, sequence, or method of application.

NOTE: The above examination is only applicable to the unit, intermediate and exterior containers.

5. PREPARATION FOR DELIVERY

5.1 Preparation for delivery shall be in accordance with all applicable requirements of PPP-C-186 (see 6.3), and as specified herein.

5.2 Packaging. Packaging shall be level A or C as specified (see 6.1).

5.2.1 Unit of issue. One box containing one hundred (100) individually sealed immediate containers of size 1 or one box containing six (6) immediate containers of size 2 or one bottle containing one (1) gallon of size 3 as specified constitutes one unit of issue.

5.2.2 Level A.

5.2.2.1 Immediate container. Immediate container shall be a commercially available immediate container considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatibility that neither the contents nor the container are altered in any way by each other.

5.2.2.2 Unit package. Each unit of issue of size 1 or size 2 shall be packaged as specified in 5.2.5 of PPP-C-186. Each unit of issue of size 3 shall be packaged as specified in 5.2.10 of PPP-C-186.

Source: https://assist.dla.mil -- Downloaded: 2026-10-21T10:22Z
Check the source to verify that this is the current version before use.

5.2.2.3 Intermediate package. Four (4) units of issue of size 1 shall be packaged as specified in 5.2.8 of PPP-C-186 or twelve (12) units of issue of size 2 shall be packaged as specified in 5.2.9 of PPP-C-186. Intermediate package is not required for size 3.

5.2.3 Level C. Units of issue shall be packaged in standard commercial containers of the size and kind commonly used, which will afford the degree of protection required for shipment and use of the product for its intended purpose.

5.3 Packing. Packing shall be level A, B, or C as specified (see 6.1).

5.3.1 Level A. Eight (8) units of issue of size 1 or twelve (12) units of issue of size 2 or four (4) units of issue of size 3 shall be packed as specified in 5.4.4 of PPP-C-186.

5.3.2 Level B. Eight (8) units of issue of size 1 shall be packed as specified in 5.4.3.2 of PPP-C-186 or twelve (12) units of issue of size 2 shall be packed as specified in 5.4.3.3 of PPP-C-186 or four (4) units of issue of size 3 shall be packed as specified in 5.4.3.4 of PPP-C-186.

5.3.3 Level C. The subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used for the purpose, so constructed as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to point of delivery called for in the contract or purchase order.

5.4 Marking.

5.4.1 Labeling. Labeling shall be in accordance with the requirements of the Federal Food, Drug and Cosmetic Act, and shall include the information required below.

5.4.1.1 Immediate container. Each immediate container label shall bear the following information:

(a) label information in accordance with commercial practice.
(b) the expiration date.

Source: https://assist.dla.mil -- Downloaded: 2026-10-21T10:22Z
Check the source to verify that this is the current version before use.

5.4.1.2 Unit package. Each unit package label shall bear the following:

(a) labeling information in accordance with commercial practice.
(b) the national stock number.

Notes: (1) The national stock number shall not be preceded by any prefix.
(2) Strip labeling may be used.
(3) Label adhesion test shall not apply.

5.4.2 Intermediate package. Each intermediate package shall be marked as specified in 5.5.3 of PPP-C-186. Type I shelf life markings shall be shown as specified in MIL-STD-129. Marking shall include the legend: "DO NOT PERMIT TO FREEZE."

5.4.3 Exterior container. Exterior container shall be marked as specified in 5.5.4 of PPP-C-186. Type I shelf life marking shall be shown as specified in MIL-STD-129. Marking shall include the legend: "DO NOT PERMIT TO FREEZE." In addition the legend "GLASS - HANDLE WITH CARE" shall be shown on the exterior container for size 3.

6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(a) Title, number and date of this specification.
(b) the National Stock Number.
(c) Selection of applicable levels of packaging and packing (See 5.2 and 5.3).

6.2 This specification covers the following item(s):

National Stock No.	Item Identification
6505-00-132-0293	ACETAMINOPHEN ELIXIR, USP, 0.12 Gram per 5 ml, Individually Sealed, 100s, Size 1
6505-00-148-7126	ACETAMINOPHEN ELIXIR, USP, 0.12 Gram per 5 ml, 4 fl oz (118 ml), 6s, Size 2
6505-00-926-9055	ACETAMINOPHEN ELIXIR, USP, 0.12 Gram per 5 ml, 1 gal (3.78 liters), Size 3

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
