MILITARY SPECIFICATION

QUINIDINE GLUCONATE TABLETS

This specification is approved for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers Quinidine Gluconate Tablets (see 6.2).

2. APPLICABLE DOCUMENTS

2.1 The following documents, of the issue in effect on date of invitation for bids or request for proposals, form a part of this specification to the extent specified herein:

SPECIFICATIONS

Federal

PPP-C-186	Containers, Packaging and Packing for Drugs, Chemicals, and Pharmaceuticals (see 6.3).

STANDARDS

Federal

FED-STD-140	Tablets (for Medicinal Purposes).

Military

MIL-STD-105	Sampling Procedures and Tables for Inspection by Attributes.
MIL-STD-129	Marking for Shipment and Storage.

FSC 6505

(Copies of specifications and standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposals shall apply.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, FOOD AND DRUG ADMINISTRATION

Federal Food, Drug, and Cosmetic Act and Regulations Promulgated Thereunder.

(Application for copies should be addressed to the Food and Drug Administration, Washington, DC 20204.)

U. S. PHARMACOPEIAL CONVENTION, INC.

The United States Pharmacopeia.

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

National Formulary.

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

3. REQUIREMENTS

3.1 Material. Shall be Quinidine Gluconate Tablets and shall be in accordance with all applicable requirements of FED-STD-140, and as specified herein:

S2. Classification. Shall be type XIII, class I (sustained-release).

S5.3 The following is added to this paragraph:

Shall be sustained-release tablets containing in each tablet 324 mg of Quinidine Gluconate, within the designated assay limits. The tablets shall contain the Quinidine Gluconate in a formulation which permits a gradual release of the active ingredient over an 8 to 10 hour period.

Check the source to verify that this is the current version before use.

S6.4.1.1 Uncoated tablets. Tablets may be mottled.

S6.4.6 Hardness. Tablets shall have a hardness test range of 4.0 Kg to 9.5 Kg or comparable values, when tested with the calibrated Pfizer hardness tester, or other suitable device capable of reliable values. Twenty (20) tablets shall be used.

S6.4.10.1 Uncoated tablets. Tablets shall comply with the USP Weight Variation Test.

S6.5.2 In table II, column no. 2, last line delete "4" and substitute "6".

3.1.1 Assay. The tablets shall assay to contain not less than 94.0 percent and not more than 106.0 percent of the required total amount of Quinidine Gluconate, and shall release doses of the active ingredient according to the following pattern:

Time Interval (hours)	Dissolution Media	Percent Release
0.5	0.5 hour G.F.*	30 - 55
1	1 hour G.F.	40 - 65
4	1 hour G.F. + 3 hours I.F.**	55 - 80
8	1 hour G.F. + 7 hours I.F.	75 - 100
10	1 hour G.F. + 9 hours I.F.	Not less than 95

* G.F. - Simulated gastric fluid.
** I.F. - Simulated intestinal fluid.

3.1.1.1 Compliance with the above requirements shall be determined by an assay for the total Quinidine Gluconate and an assay for sustained release of Quinidine Gluconate, using appropriate, accurate and reproducible methods. The identification of the active ingredient in the finished product shall be determined by an appropriate, accurate, and reproducible method.

The bidder or offeror shall submit with its bid or proposal the proposed methods of total assay, release rate assay, and identification. If the methods are approved and accepted by the Government, such methods shall be employed in the testing of the tablets. The requirement for submission of the methods may be waived, provided the offeror states, in his bid or proposal, that the product he proposes to furnish is the same product he has offered to the purchasing activity on a previous procurement and that the suppliers of the ingredients, specification of the ingredients, and the method of manufacture of the finished product have not been changed.

3.1.1.2 In determining the release rate ranges, a total of 50 tablets (10 tablets for the 5 groups) shall be used. The requirements of this test are met if 8 of the 10 tablets in each group fall within the limits, but not more than 5 of the total of 50 tablets tested shall deviate from the limits by more than 5 percentage units.

Check the source to verify that this is the current version before use.

3.2 Ingredients. The Quinidine Gluconate used in the manufacture of the tablets shall be of U.S.P. quality. All other ingredients entering into the finished tablet shall comply with paragraph S5.1 of FED-STD-140.

3.3 Expiration dating period. The expiration dating period shall be 60 months.

4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and, (i) as to any expiration dated item, for the expiration dating period (potency period) specified by the contractor for such item, or such longer period as may be required by regulation of any federal agency; or (ii) as to non-dated items, for not less than 3 years after delivery of the items to the Government.

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Sampling. The sampling as shown in FED-STD-140 shall be applicable.

4.3 Tests and examinations. Tests and examinations shall be performed to determine compliance with all requirements of this document and all referenced documents.

Check the source to verify that this is the current version before use.

4.4 Examination of preparation for delivery. An examination shall be made to determine whether the packaging, packing, and marking comply with the requirements of Section 5. Defects shall be scored as specified in Table I. Sampling shall be in accordance with MIL-STD-105. The sample unit shall be one container fully prepared for delivery. The lot shall be the number of containers offered for inspection at one time. The inspection level shall be S-2 and the acceptable quality level shall be 4.0 defects per hundred units. For labeling, the acceptance number shall be zero.

Table I. Examination of preparation for delivery

Examination	Defect
Containers	Not as specified.
Quantity	Quantity in interior packages and shipping containers not as specified.
Packaging and packing materials	Any component missing or damaged.
Workmanship	Inadequate application of components such as incomplete closure of container flaps, tape improperly applied, or containers distorted.
Markings	Omitted, incorrect, illegible, improper size, location, sequence, or method of application.

5. PREPARATION FOR DELIVERY

5.1 Preparation for delivery shall be in accordance with all applicable requirements of PPP-C-186, and as specified herein.

5.2 Packaging. Packaging shall be level A or C as specified (see 6.1).

5.2.1 Unit of issue. One bottle containing two hundred fifty tablets as specified, constitutes one unit of issue.

Source: https://assist.dla.mil -- Downloaded: 2026-10-21T10:21Z
Check the source to verify that this is the current version before use.

5.2.2 Level A.

5.2.2.1 Immediate container. The immediate container shall be a commercially available bottle considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatibility that neither the contents nor the container are altered in any way by each other.

5.2.2.2 Unit package. At the option of the contractor, a unit package may be furnished. If a unit package is furnished, each bottle shall be packaged as specified in paragraph 5.2.5 of PPP-C-186.

5.2.2.3 Intermediate package. Six units of issue shall be packaged as specified in 5.2.8 of PPP-C-186.

5.2.3 Level C. Units shall be packaged in standard commercial containers of the size and kind commonly used, which will afford the degree of protection required for shipment and use of the product for its intended purpose.

5.3 Packing. Packing shall be level A, B or C as specified (see 6.1).

5.3.1 Level A. Eight intermediate packages (48 units) shall be packed in an exterior container as specified in 5.4.4 of PPP-C-186.

5.3.2 Level B. Eight intermediate packages (48 units) shall be packed in an exterior container as specified in 5.4.3 of PPP-C-186.

5.3.3 Level C. The subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used for the purpose, so constructed as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to point of delivery called for in the contract or purchase order.

5.4 Marking.

5.4.1 Labeling. Labeling shall be in accordance with the requirements of the Federal Food, Drug and Cosmetic Act and shall include the information required below:

Source: https://assist.dla.mil -- Downloaded: 20260-21T10:21Z
Check the source to verify that this is the current version before use.

5.4.1.1 Immediate container. Each immediate container label shall bear the following information:

(a) label information in accordance with commercial practice.
(b) the expiration date.

5.4.1.2 Unit package. Each unit package label shall bear the following:

(a) labeling information in accordance with commercial practice.
(b) the National Stock Number.

NOTES: (1) The National Stock Number shall not be preceded by any prefix.
(2) Strip labeling may be used.
(3) Label adhesion test shall not apply.
(4) If a unit package is not supplied, the National Stock Number shall appear on the immediate container.

5.4.2 Intermediate package. Each intermediate package shall be marked in accordance with paragraph 5.5.3 of PPP-C-186. Type II Shelf Life marking as specified in MIL-STD-129 shall apply.

5.4.3 Exterior container. Exterior containers shall be marked as specified in 5.5.4 of PPP-C-186. Type II Shelf Life marking as specified in MIL-STD-129 shall apply.

6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(a) Title, number and date of this specification.
(b) the National Stock Number.
(c) Selection of applicable levels of packaging and packing (See 5.2 and 5.3).

6.2 This specification covers the following item(s):

National Stock No.	Item Identification
6505-00-728-2009	QUINIDINE GLUCONATE TABLETS, 324 mg, 250s

Source: https://assist.dla.mil -- Downloaded: 2026-10-21T10:21Z
Check the source to verify that this is the current version before use.

6.3 All references to PPP-C-186 refer to Interim Federal Specification PPP-C-00186B which is mandatory for use until superseded by a revision.

6.4 This specification does not cover all types, classes, grades, or sizes of the commodity indicated by the title of this specification, or those which are commercially available, but is intended to cover the types which are normally procured to meet Military requirements.

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/ vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
