3. REQUIREMENTS

3.1 General - General requirements and associated tests common to all fire control instruments as contained in Specification 51-7 shall be mandatory where applicable.

3.2 Materials - Materials shall be in accordance with the applicable drawings, and specifications forming part of this specification.

3.3 Temperature - Temperature requirement and test for assembled mounts shall not apply.

3.4 Illumination - With a 24 volt d-c source applied to the receptacle assembly, the signal light assembly shall be checked for functional operation.

3.5 Workmanship - Workmanship shall be in accordance with Specification 51-7.

4. SAMPLING, INSPECTION, AND TEST PROCEDURES

4.1 Unless otherwise specified, each periscope mount shall be inspected for conformance with this specification and as specified in Specification 51-7.

5. PREPARATION FOR DELIVERY

5.1 Packaging, packing and marking - Packaging, packing and marking shall be in accordance with Military Specification, MIL-P-12413.

6. NOTES

6.1 Ordering data.- Invitation for bids and contracts shall specify the title, number and date of this specification, type of mount, and type of packing.

NOTICE: This specification, together with specifications and drawings pertaining to it and bearing a "NOTICE" of similar restrictions, is intended for use only in connection with procurement by the United States Government; and shall not be reproduced either wholly or in part except when authorized in connection with Government procurement, nor be used for any other purpose except when specifically authorized by the Chief of Ordnance.
