COMMERCIAL ITEM DESCRIPTION

UNDERSHIRT, INFANT'S

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for MIL-U-0043596, dated 1 August 1978 and MIL-U-43596, dated 23 September 1968.

This Commercial Item Description covers an infant's double-breasted, wrap-around type undershirt.

Salient characteristics:

The infant's undershirt shall be a double-breasted, wrap-around type with a one piece body, long sleeves, six (6) tie tapes, bound around the neckline and front edges. The undershirts shall be fabricated from knitted, bleached, combed or carded 100 percent cotton cloth or a blend of 60 percent (maximum) polyester and the remaining percentage combed or carded cotton. The knitted cloth shall have a minimum of 20 wales per inch and 25 courses per inch. The undershirt shall fit infants weighing 12 to 18 pounds (6 months old) and shall have the following dimensions in inches:

Width	6-1/2 to 7-1/2
Length	11 to 12
Sleeve Length	6 to 7-1/2
Armhole Width	3-1/4 to 4-1/4
Width at Wrist	1-3/4 to 2-1/2

Workmanship. The undershirt shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing seventy-two undershirts, as specified, constitutes one unit.

AMSC N/A FSC 6532

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Sampling for examination. Sampling for examination shall be conducted in accordance with MIL-STD-105, with an AQL of 1.0 (percent defective) and an inspection level of II. The unit of product for examination purposes shall be one undershirt, as specified in this description.

Sampling for tests. Sampling for tests (dimensional) shall be conducted in accordance with MIL-STD-105, with an AQL of 2.5 (percent defective) and an inspection level of S-I. The unit of product for test purposes shall be one infant's undershirt.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met.

Check the source to verify that this is the current version before use.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
