COMMERCIAL ITEM DESCRIPTION

MAGNIFIER, SPECTACLE, GULLSTRAND

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a type of magnifying loupe for ophthalmology, ENT neurosurgery, dentistry and all other close work that requires slight magnification.

Salient characteristics:

General. The magnifier shall be essentially a pair of binocular magnifying spectacles of the Gullstrand design to provide 2X magnification with 50 mm field of vision. The focal distance shall be 10 inches from the objective lenses.

The lens shall be glass, multi-element type, housed in an all-metal mounting barrel. The lens shall be color-corrected and distortion-free to the edge of the entire field of vision.

The frame and temples shall be all metal, made of copper-nickel alloy. Temples shall be comfort cable type.

The bridge shall have a pupillary distance adjustment feature. Adjustment shall be accomplished by loosening two thumb screws to provide up to 5 mm independent adjustment to each side.

Provide a storage case with each magnifier. The case shall be durable, made of leather or imitation leather material.

Finish. The unit shall be fabricated from materials which are inherently resistant to corrosion or which are treated to render them corrosion-resistant. Finish shall provide a pleasing professional appearance and be free from gaps, scratches, chips and other imperfections.

Workmanship. The magnifier shall be free from defects which detract from its appearance or impair its serviceability.

MSC N/A FSC 6540

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Unit. Each (EA). One magnifier stored within a protective case, as specified, constitutes one unit.

Metric Product. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the produce is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug, and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use the covered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

NSN	ITEM IDENTIFICATION

INSTRUCTIONS. In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge (DO NOT STAPLE), and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE. This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
