ADOPTION NOTICE

IEEE 1278.3, “IEEE Standard for Distributed Interactive Simulation Exercise Management & Feedback (EMF) - Recommended Practice,” was adopted on July 1, 2005, for use by the Department of Defense (DoD). Proposed changes by DoD activities must be submitted to the DoD Adopting Activity: Defense Modeling and Simulation Office (DMSO), Attn: Standards, 1901 N. Beauregard Street, Alexandria, VA 22311-1705. Copies may be purchased from the Institute of Electrical and Electronics Engineers at the IEEE Customer Service Center, 445 Hoes Lane, P.O. Box 1331, Piscataway, NJ 08855-1331, U.S.A. or via the web at http://www.ieee.org.

In accordance with DoD 4120.24-M, the following is included as guidance from DMSO as the Adopting activity: IEEE 1278.3 has been adopted to support existing applications and those situations in which Distributed Interactive Simulation (DIS) protocols are required by interoperability requirements. Its use is deprecated in favor of the IEEE 1516 series for all other simulation environments.

T IEEE 1278.3 establishes guidelines for exercise management and feedback in DIS exercises. It provides recommended procedures to plan, set up, execute, manage, and assess a DIS exercise.
