MIL-B-1771F
AMENDMENT-1
30 March 1979

MILITARY SPECIFICATION

BARBER KIT, WITH CASE

This amendment forms a part of Military Specification MIL-B-1771F, dated 8 May 1974, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 8

3.4.5, line 2, after the word "switch", insert "with no exposed metal parts,".

line 3, delete the sentence beginning "The chord --" and insert, "The cord set shall have a three (3) conductor cord with grounding conductor attached electrically to all exposed metal parts and shall be 8 feet minimum length with a non-metallic strain relief provided at the entry to the motor housing. If double insulated motor construction is provided, the cord set may be the 2 conductor type, eight feet minimum length with a non-metallic strain relief provided at the entry to the motor housing."
