MIL-P-2001D
AMENDMENT-2

20 August 1975

MILITARY SPECIFICATION

PUNCH, CUTTING, REVOLVING HEAD

This amendment forms a part of Military Specification MIL-P-2001D, dated 12 August 1964, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 1

2.1, under "SPECIFICATIONS - FEDERAL". Delete "QQ-P-416" complete with title.

Add "QQ-N-290 - Nickel Plating (Electro-Deposited)."

Add "PPP-P-40 - Packaging and Packing of Hand Tools."

Under "SPECIFICATIONS - MILITARY". Delete "MIL-H-15424" complete with title.

Under "STANDARDS - FEDERAL". Delete "Fed. Test Method Std. No. 151" complete with title.

Under "STANDARDS - MILITARY". Delete "MIL-STD-130" complete with title.

Add new paragraph as follows:

"2.2 Other publications. The following document forms a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposal shall apply:

AMERICAN SOCIETY FOR TESTING AND MATERIALS (ASTM)

E18 - 67 - Methods of Test for Rockwell Hardness and Rockwell Superficial Hardness of Metallic Materials

(Application for copies should be addressed to the American Society for Testing and Materials, 1916 Race Street, Philadelphia, Pa. 19103.)

PAGE 1 (cont'd)

(Technical society and technical association specifications and standards are generally available for reference from libraries. They are also distributed among technical groups and using Federal Agencies.)"

3.1, line 1. Delete "Preproduction sample" and substitute "First article".

PAGE 3

3.6, line 3. Delete "3.6.1" and substitute "3.6.2". Delete "3.6.3" and substitute "3.6.4".

3.6.1 Delete in its entirety.

Add the following new paragraph in proper sequence:

"3.6.4 Nickel plate. Nickel plate shall conform to class 2, type IV of QQ-N-290."

3.7, line 2. Delete "in accordance with MIL-STD-130" and substitute "with the manufacturer's name or readily identifiable trademark."

3.8 Delete in its entirety and substitute the following:

"3.8 Workmanship. The punch shall be free of rust, burrs, and sharp edges (except cutting edges). The revolving head shall rotate and the punch shall operate without the use of undue force. Cutting edges shall be free of nicks or rough edges. Finish shall be free of blistering, chipping, scratching or foreign matter."

4.1, second sentence. Delete and substitute "Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government."

4.2 Delete in its entirety and substitute the following:

"4.2 First article inspection. When a preproduction sample is required, it shall be examined for defects in 4.3.3.1, dimensions specified, and tested in accordance with 4.4.1. The presence of any visual defects, any dimensions not within the specified requirements, or failure to pass the test shall be cause for rejection of the preproduction sample."

PAGE 3 (cont'd)

4.3 Delete in its entirety and substitute the following:

"4.3 Inspection. Sampling for inspection shall be performed in accordance with the provisions set forth in MIL-STD-105, except where otherwise indicated herein."

4.3.1 Delete in its entirety and substitute the following:

"4.3.1 Component and material inspection. In accordance with 4.1 above, components and materials shall be inspected and tested in accordance with all the requirements of referenced specifications, drawings, and standards unless otherwise excluded, amended, modified, or qualified in this specification or applicable purchase document."

4.3.2.1 Delete in its entirety and substitute the following:

"4.3.2.1 Hardness test. The cutting tubes shall be tested in accordance with ASTM E18-67. A minimum of two determinations shall be made on each sample unit. A lot shall consist of all cutting tubes of one size offered for inspection at one time. The sample unit shall be one cutting tube. The inspection level shall be S-2 with an acceptable quality level (AQL) of 1.5, expressed in terms of defects per hundred units. Nonconformance to the hardness requirements specified in 3.5.4 shall constitute failure of this test."

PAGE 4

4.3.3 continued, line 1. Delete "acceptance" and substitute "inspection".

4.3.3.1 Table of defects, under "Construction and workmanship". Add "Handles not knurled when required" as a major defect, "Head does not revolve without undue force" as a major defect, and "Cutting edges not free of nicks or rough edges" as a minor defect.
