MILITARY SPECIFICATION

DOXORUBICIN HYDROCHLORIDE FOR INJECTION

This specification is approved for use by the Defense Personnel Support Center, Defense Logistics Agency, and is available for use by all Departments and Agencies of the Department of Defense.

1. SCOPE

1.1 Scope. This specification covers Doxorubicin Hydrochloride for Injection.

1.2 Classification. The injection covered by this specification shall be of the following sizes and strengths (See 6.2):

Strength 1 - 10 mg
Strength 2 - 50 mg
Size 1 - 10 ml, 10s
Size 2 - 50 ml

2. APPLICABLE DOCUMENTS

2.1 Issues of documents. The following documents, of the issue in effect on date of invitation for bids or request for proposals, form a part of this specification to the extent specified herein.

SPECIFICATIONS

FEDERAL

PPP-C-186 - Containers, Packaging and Packing for Drugs, Chemicals and Pharmaceuticals.

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: Headquarters, Defense Personnel Support Center, ATTN: Directorate of Medical Materiel, DPSC-ATT, 2800 South 20th Street, Philadelphia, Pa. 19101, by using the self-addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

S2. Classification. Shall be type IV, class 1, style A.

S5.3 The following is added to this paragraph:

For strength 1, shall be lyophilized doxorubicin hydrochloride for injection containing 10 mg of doxorubicin hydrochloride and 50 mg of lactose per immediate container.

For strength 2, shall be lyophilized doxorubicin hydrochloride for injection containing 50 mg of doxorubicin hydrochloride and 250 mg of lactose per immediate container.

S6.8 Delivery schedule. Not more than 5 months of the expiration dating period shall have elapsed at the time of delivery to the Government.

3.2 Certification. The finished product shall conform to the pertinent provisions of the applicable regulations for the Certification of Antibiotics and Antibiotic-containing Drugs, as promulgated by the FDA. Each lot shall be certified by the FDA.

3.3 Ingredients.

3.3.1 Doxorubicin hydrochloride. The doxorubicin hydrochloride used in the manufacture of the product shall be in accordance with the applicable regulations for the Certification of Antibiotics and Antibiotic-containing Drugs, as promulgated by the FDA.

3.3.2 Lactose. The lactose used in the manufacture of the product shall comply with the tests, standards, and requirements of the USP, including any supplements or revisions thereto.

3.4 Other ingredients. All other ingredients used in the manufacture of the product shall comply with S5.1 of FED-STD-142.

3.5 Expiration dating period. The expiration dating period shall be not less than 24 months.

4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and, (i) as to any expiration dated item, for the expiration dating period specified by the contractor for such item, or such longer period as may be required by regulation of any federal agency; or (ii) as to non-dated items, for not less than 3 years after delivery of the item to the Government.

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Sampling. Sampling as shown in FED-STD-142 shall be applicable.

4.3 Packaging inspection. The inspection of the intermediate package, packing and marking for shipment and storage shall be in accordance with quality assurance provisions of the applicable container specification and the marking requirements of MIL-STD-129.

4.4 Labeling inspection. Sampling shall be in accordance with MIL-STD-105 and the unit of product shall be the unit of issue. The inspection lot shall be the number of units of issue of each batch, lot, control number, etc., offered for inspection at one time. The inspection level for labeling shall be S-2 and the acceptance number shall be zero.

4.5 Tests and examinations. Tests and examinations shall be performed to determine compliance with all requirements of this document and all referenced documents.

5. PACKAGING

5.1 Packaging requirements. The requirements for packaging shall be in accordance with all applicable requirements of PPP-C-186 and as specified herein.

5.2 Packaging. Packaging shall be level A or C, as specified (See 6.1).

5.2.1 Unit of issue. One box containing 10 vials of size 1 or one bottle containing 50 mg of size 2, as specified, constitutes one unit of issue.

Check the source to verify that this is the current version before use.

5.2.2 Level A.

5.2.2.1 Immediate container.

5.2.2.1.1 Size 1. The immediate container for size 1 shall be a 10 ml commercially available vial considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatibility that neither the contents nor the container are altered in any way by each other.

5.2.2.1.2 Size 2. The immediate container for size 2 shall be a 50 ml commercially available vial considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatability that neither the contents nor the container are altered in any way by each other.

5.2.2.2 Unit packaging. Each unit of size 1 shall be packaged as specified in 5.2.5 of PPP-C-186. At the option of the contractor, each unit of size 2 may be packaged as specified in 5.2.5 of PPP-C-186.

5.2.2.3 Intermediate packaging. Twelve (12) units of issue of size 1 or size 2 shall be packaged as specified in 5.2.8 of PPP-C-186.

5.2.3 Level C. Units shall be packaged in standard commercial containers of the size and kind commonly used, which will afford the degree of protection required for shipment and use of the product for its intended purpose.

5.3 Packing. Packing shall be level A, B or C, as specified (see 6.1)..

5.3.1 Level A. Seventy-two (72) units of issue of size 1 or one hundred forty-four (144) units of issue of size 2 shall be packed as specified in 5.4.4 of PPP-C-186.

5.3.2 Level B. Seventy-two (72) units of issue of size 1 or one hundred forty-four (144) units of issue of size 2 shall be packed as specified in 5.4.3.2 of PPP-C-186.

5.3.3 Level C. The subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used for the purpose, so constructed as to insure acceptance and safe delivery by common or other carriers, at the lowest rate, to point of delivery called for in the contract or purchase order.

5.4 Marking.

5.4.1 Labeling. Labeling shall be in accordance with the requirements of the Federal Food, Drug and Cosmetic Act and shall include the information required below:

5.4.1.1 Immediate container. Each immediate container label shall bear the following information:

(a) label information in accordance with commercial practice.

(b) the expiration date.

5.4.1.2 Unit package. Each unit package label shall bear the following information:

(a) label information in accordance with commercial practice.
(b) the National Stock Number.
(c) extended potency lines.

NOTES: (1) The National Stock Number shall not be preceded by any prefix.

(2) Strip labeling may be used.

(3) Label adhesion test shall not apply.

(4) If a unit package is not supplied for size 2, the National Stock Number and extended potency lines shall appear on the immediate container label.

5.4.2 Intermediate package. Each intermediate package shall be marked as specified in 5.5.3 of PPP-C-186. In addition, Type II shelf life marking as specified in MIL-STD-129 shall be shown.

5.4.3 Exterior container. Exterior containers shall be marked as specified in 5.5.4 of PPP-C-186. Type II shelf life marking as specified in MIL-STD-129 shall be shown.

6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(a) Title, number, and date of this specification.

(b) National Stock Number.

(c) Selection of applicable levels of packaging and packing (See 5.2 and 5.3).

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
