AIR FORCE-NAVY AERONAUTICAL BULLETIN

AIRBORNE ELECTRONIC AND ASSOCIATED EQUIPMENT, APPLICABLE DOCUMENTS

1. Scope - This bulletin lists the latest effective issue of specifications, standards, and publications to be used in the design and construction of electronic and associated equipment. The use of this list is governed by specifications referencing this bulletin.

2. Applicability of documents - The documents listed herein are for use wherever they are suitable for the application, and to the extent specified in the specifications invoking this bulletin. The fact that a document is listed in this bulletin does not constitute automatic approval of its use in all applications. Responsibility for determing proper application lies with the contractor, and shall be within the requirements for a particular equipment.

3. Selection of documents - When this bulletin fails to provide an applicable document; parts, materials, and processes shall be equivalent to or better than the similar parts, materials, and processes specified herein. The order of precedence for selection of documents not listed herein shall be as specified in MIL-STD-143.

4. Supersession data - This issue of ANA Bulletin No. 400 supersedes all previous issues of ANA Bulletin No. 400 for new designs.

5. Lists - This bulletin provides two orders of listing: (1) alphabetical list and (2) numerical list. The alphabetical list arranges the documents within four (4) major classifications:

Classification	Page No.
Parts	3-16
Materials	16-21
Processes	22-24
Related documents	24-29

6. Requirement numbers from MIL-STD-454 - Where a requirement number from MIL-STD-454 is referenced in the general specification, the requirement must be reviewed to determine any specific application or limitation criteria.

7. Notes -

"*" Indicates the document is new in this issue.

"1/" Indicates the use of the document is limited by the general specification to certain Military Services only.
