SUPERSEDING
Fed. Std. No. 00131D
February 26, 1974

INTERIM FEDERAL STANDARD

DIAZOTYPE PAPER SHEET AND ROLL SIZES

This Interim Federal Standard was developed by the General Services Administration, Federal Supply Service, Washington, DC 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this Interim Federal Standard as a valid exception to Federal Standard No. 131C, dated March 29, 1968.

S1. Purpose and scope. This standard establishes sizes, designators and National Stock Numbers for diazo paper for the use of all Federal agencies to achieve the optimum degree of standardization.

S2. Application. Purchases from commercial sources under Federal Specification UU-P-221 of the issues in effect on date of invitation for bid shall be limited to items which have characteristics conforming to this standard. Existing Government stocks of items with other characteristics shall continue to be utilized until exhausted. In those cases where this Federal standard eliminates supply items and the items so eliminated are under contract, if the contract can not be negotiated or amended to conform to the standard item, the Federal Standard becomes mandatory at the contract expiration date.

S3. Requirement. Diazo type paper purchased for use by Federal agencies shall be limited to the following National Stock Numbers. Unless otherwise denoted by an asterisk, sheet sizes will be packaged 250 sheets to the first wrap. When denoted by an asterisk sheet sizes will be packaged 100 sheets to the first wrap.

S4. Changes. When a Federal agency considers that this standard does not provide for its essential needs, written request for changing or adding to the standard supported by adequate justification shall be sent to the administration. This justification shall explain wherein the standard does not provide for essential needs. The request shall be sent in duplicate to the General Services Administration, Federal Supply Service, Mechanical and Electrical Division, Washington, DC 20406. The Administration will determine the appropriate action to be taken and will notify the agency.

S5. Conflict with reference specification. Where the requirements stated in this standard conflict with any requirement in a reference specification, the requirements of the standard shall apply. Nature of conflict between the standard and the reference specification shall be submitted in duplicate to the General Services Administration, Federal Supply Service, Mechanical and Electrical Division, Washington, DC 20406.

GSA DC 78-7912
