Fed. Std. No. 74a

June 26, 1963

SUPERSEDING
Fed. Std. No. 74
April 19, 1957

FEDERAL STANDARD

TRANSFORMER, POWER, DISTRIBUTION (67000 VOLTS AND BELOW, 501 THROUGH 10,000 KVA, 3 PHASE, 501 THROUGH 5,000 KVA, 1 PHASE)

Authority.—*This standard is issued pursuant to the Federal Property and Administrative Services Act of 1949, as amended, and its application to the purchase of commodities referred to herein is mandatory on all Federal agencies.*

S1. Purpose and scope. The purpose of this standard is the achievement of the full use of standardized medium capacity transformers by the Government and thus realize the potential savings in cost of equipment and in delivery time made possible through such use. This standard covers electrical characteristics and mechanical features of 60-cycle, 2-winding mineral-oil filled transformers rated 501 to 5,000 kva., inclusive, single phase; 501 to 10,000 kva., inclusive, three phase; high voltage, 2,400 to 67,000 volts, inclusive; low voltage, 480 to 14,400 volts, inclusive, generally used for step-down purposes.

S2. Application. This standard shall be used wherever applicable, by reference in Government specifications and invitations for bids, including those employed in connection with construction contracts, except where its use is impracticable in the procurement of replacement units for existing installation.

S3. Reference publications. The latest issues of the following publications are pertinent to this standard:

American Standards Association, Inc., Standards:

Requirements, Terminology, and Test Code for Distribution, Power and Regulating Transformers, and Reactors Other Than Current-Limiting Reactors:

C57.12.00—General.
C57.12.10—Transformers, 67,000 Volts and Below, 501 Through 10,000 KVA, 3 Phase; 501 Through 5,000 KVA, 1 Phase.
C57.12.80—Terminology.
C57.12.90—Test Code.

S4. Requirements. The electrical characteristics and mechanical features of the transformers covered by this standard shall be as described in A.S.A. Standards C57.12.00, C57.12.10, and C57.12.80, as applicable.

S5. Changes. When a Federal agency considers that a Federal standard does not provide for its essential needs, written request for adding to or otherwise changing the standard, supported by adequate justifica-

tion, shall be sent to the Administration. This justification shall explain wherein the standard does not provide for essential needs. The request shall be sent in duplicate to the General Services Administration, Federal Supply Service, Standardization Division, Washington 25, D.C. The Administration will determine the appropriate action to be taken and will notify the agency.

Single copies of this standard are available without charge at the GSA Regional Offices in Boston, New York, Washington, D. C., Atlanta, Chicago, Kansas City, Mo., Dallas, Denver, San Francisco, and Auburn, Wash. Additional copies may be purchased for 5 cents each from the General Services Administration, Business Service Center, Washington 25, D. C.
