10-1-510 - Food Container, Insulated, 20 Meal, One Time Use; Assembly Complete

PUBLICATIONS

United States Department of Health, Education and Welfare

Food and Drug Administration

Federal Food, Drug, and Cosmetic Act, as Amended

Federal Regulations for Contact with Food.

(Application for copies should be addressed to Superintendent of Documents, Government Printing Office, Washington, DC 20402.)

(Copies of specifications, standards, drawings, and publications required by suppliers in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 First article. The supplier shall furnish a sample of the item to be procured under this specification for first article testing and approval (see 4.3 and 6.3).

3.2 Codes and standards. The food containers and all components furnished shall comply with the applicable requirements of the Federal Food, Drug, and Cosmetic Act (Food Additive resulting from contact with containers or equipment and food additive otherwise affecting food, Section 121.2510, Subpart F, Part 121, Chapter 1, Title 21, Code for Federal Requirements for Contact with Food).

3.2.1 Compliance. Prior to approval of the first article, if one is submitted, or prior to commencing production, the supplier shall submit to the contracting officer or his authorized representative satisfactory evidence that the food container and all components thereof he proposes to furnish under this specification meet the applicable requirements of the Federal Food, Drug, and Cosmetic Act. Acceptable evidence shall be a certification from a recognized independent testing laboratory.

3.3 Design and construction. The food containers shall conform to the design, construction, materials, and number of components shown on Drawing No. 10-1-510. All components including the Government furnished items shall be packed in each container as shown on Drawing No. 10-1-510 and in the quantities specified.

3.4 Government-furnished property. The following property in the quantities indicated will be furnished by the Government (see 6.4):

Item No.	Description	Ident.	Qty/ea. Compl. Assembly
1-5	Plate, paper compartmental	FSN 7350-633-9743	20
1-6	Packet, Cream, Dry	FSN 8940-926-5391	20
1-7	Packet, Coffee, Instant	FSN 8955-170-9318	20
1-8	Cup, 6 ounce, Hot, Paper	FSN 7350-290-0588	20
1-13	Dining Packet, In Flight	FSN 7360-660-0526	20

3.5 Insulation color. The exterior surfaces of the insulation specified on Drawing No. 10-1-510 shall be permanently colored, a dull, non-reflecting, green.

3.6 Marking. Each food container shall be marked as shown on Drawing 10-1-510. The stenciling shall be in black ink, in one inch characters and legible. The arrows shall be a minimum of 3-1/2 inches long from tail to head.

3.7 Workmanship. The finished food container shall be free of cuts, dents, and scuffs. All components shall fit tightly in the outer container in the position shown on Drawing 10-1-510.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facitities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Component and material inspection. The supplier shall insure that all components and materials used are manufactured, examined, and tested in accordance with referenced specifications and standards unless excluded, amended, modified or qualified in this specification or applicable purchase document.

4.2 Classification of inspection. The inspection requirements specified herein are classified as follows:

1. First article inspection (see 4.3).
2. Quality conformance inspection (see 4.4).
3. Inspection of preparation for delivery (see 4.6).

Source: https://assist.dla.mil -- Downloaded: 2026-10-21T22:36Z
Check the source to verify that this is the current version before use.

4.3 First article. When a first article is required the food containers shall be examined for defects listed in table I and dimensions specified. The presence of any defect or dimension not as specified shall be cause for rejection of the first article.

4.4 Quality conformance inspection. Except as otherwise specified herein, sampling for inspection shall be performed in accordance with the provisions set forth in MIL-STD-105.

4.4.1 End item inspection. The inspection lot shall be all food containers offered for inspection at one time.

4.4.1.1 Visual examination. The food containers shall be examined for the defects in table I. The inspection level shall be level II with and acceptable quality level (AQL) of 4.0 for major defects and 6.5 for total defects, expressed in terms of defects per hundred units.

TABLE I. Visual examination for defects

Examine	Defect	Classification Major	Minor
Finish	Insulation not colored as specified	X	
Construction and workmanship	Components not as specified	X	
	Outer carton has dents, cuts, or scuffs		X
	Interior components, missing, loosely packed, or damaged	X	
Marking	Not legible, smeared, missing, incomplete, or not as specified		X

4.4.1.2 Dimensional examination. The food containers shall be examined for compliance with dimensions specified. Any dimension not within the specification tolerance shall be a defect. The inspection level shall be S3 with an AQL of 2.5 defects expressed in terms of defects per hundred units.

4.5 Code and standards compliance. Certificates of compliance, certified test reports, approval labels or listing marks for codes and standards, as applicable, that are submitted as proof of compliance with the specification requirements shall be examined and validated.

4.6 Inspection of preparation for delivery. An examination shall be made to determine that preparation for delivery as specified in section 5 is in conformance with MIL-L-35078.

5. PREPARATION FOR DELIVERY

5.1 Packing. Packing shall be level A, B, and C as specified (see 6.2).

5.1.1 Level A. The food containers shall be arranged in a unit load in accordance with type I, class B, of MIL-L-35078.

5.1.2 Level B and C. The insulated containers shall be arranged in a unit load in accordance with type I, class A of MIL-L-35078.

5.2 Marking. In addition to any special marking required by the contract or order, unit loads, shall be marked in accordance with MIL-L-35078.

6. NOTES

6.1 Intended use. The insulated, disposable, food container covered by this specification is intended for field use to be used as a one time only food container large enough to feed 20 men in the field. It is intended to be disposed of by incineration or burying.

6.2 Ordering data. Procurement documents should specify the following:

(a) Title, number, and date of this specification.
(b) Selection of the applicable level of packing (see 5.1).

6.3 First article. When a first article is required, it shall be inspected and approved under the appropriate provisions of ASPR 7-104.55. The first article should be a preproduction sample, initial production item or other specific item described under the definition of a first article in the ASPR. The contracting officer should specify type of first article and the number of units to be furnished. The contracting officer should include specific instructions in all procurement instruments regarding arrangements for inspection and approval of the first article.

6.4 Government furnished property. The contracting officer should arrange to furnish property specified in 3.4.

6.5 Supersession data. This specification includes the requirements of Interim Purchase Description S-6-2 dated 28 July 1972.
