PAGE 3

* 3.1, delete in its entirety and substitute:

"3.1 Material. The fog oil shall be of overhead petroleum fraction(s) and shall contain no additives nor rerefined oils. The contractor shall certify that no carcinogenic or potentially carcinogenic constituents are present as defined under the Hazard Communication Standard (HSC) 29 CFR 1910.1200. Certification to this effect and material safety data sheets completed in accordance with FED-STD-313 shall be made available to the contracting officer or the contracting officer's representative."

* After 4.1, add the following:

"4.1.1 Responsibility for compliance. All items must meet all requirements of sections 3 and 5. The inspection set forth in this specification shall become a part of the contractor's overall inspection system or quality program. The absence of any inspection requirements in the specification shall not relieve the contractor of the responsibility of assuring that all products or supplies submitted to the Government for acceptance comply with all requirements of the contract. Sampling in quality conformance does not authorize submission of known defective material, either indicated or actual, nor does it commit the Government to acceptance of defective material."

PAGE 4

* 4.3.2, line 2, delete "ASTM D 270" and substitute "ASTM D 4057".

* After 4.5.1, add the following:

"4.5.2 Material. Materials used in the fog oil shall comply with 3.1. Certification of non-carcinogenicity as specified (i.e., materials are not considered carcinogenic or potentially carcinogenic) and material safety data sheets shall be provided to the contracting officer or the contracting officer's representative."

PAGE 6

After 6.4, add:

"6.5 Material safety data sheets. Contracting officers will identify those activities requiring copies of completed material safety data sheets prepared in accordance with FED-STD-313. The pertinent government mailing addresses for submission of data are listed in appendix B of FED-STD-313."
