MILITARY SPECIFICATION

SPECIFICATIONS, TYPES AND FORMS; NAVSEA XWS AND WS SERIES

This amdnement forms a part of Military Specificaton MIL-S-83490/1(OS), dated 18 June 1974.

By this amendment, Specification MIL-S-83490/1(OS) is changed throughout to read "Naval Sea Systems Command" in lieu of "Naval Ordnance Systems Command," and "NAVSEA" or "NAVSEASYSCOM" in lieu of "NAVORD" or "NAVORDSYSCOM", respectively.

PAGE 4

3.4.4: Add the following subparagraph thereunder:

"3.4.4.1 Inactive for procurement. XWS and WS specifications shall include a notation which identifies a date, no more than two years later than the approval date of the specification, after which the specification may not be used for procurement. The note shall appear on the cover sheet and first page of the specification and shall be typed in full capitalization two lines below the title and centered on the page. The note shall be lined and boxed in as shown in the following examples:

THIS SPECIFICATION INACTIVE FOR PROCUREMENT AFTER 10 JANUARY 1980.

"

6.3: Add new paragraph as follows:

"6.3 Definitions

6.3.1 Application. The orderly process of reviewing and selecting from the total realm of available specifications and standards those that are considered to have application to the particular development or procurement program and contractually invoking these wholly, or in part, at the most advantageous point in the equipment, weapon or weapon system cycle.

6.3.2 Tailoring. The process by which the individual requirements (sections, paragraphs or sentences) of the selected specifications and standards are evaluated to determine the extent to which each requirement is most suitable for a specific application and the modification of these requirements, where necessary, to assure that each tailored document invoked states only the minimum needs of the Government."
