MIL-C-46507A(MU)
AMENDMENT 1
1 November 1973

MILITARY SPECIFICATION
CASE, CARTRIDGE, 105MM, M14B1

This amendment forms a part of Military Specification MIL-C-46507A(MU), 15 October 1965.

Add paragraph 4.3.2 a:

"4.3.2 a Tool Control Dimensions.-Dimensions marked tool control shall be gaged during first article inspection, and after 250 items are produced from each machine in operation and after any tooling change. Where destruction of components is necessary to inspect these dimensions, measurements of the tool may be substituted provided the contractor has established correlation between the tool dimensions and the component dimensions prior to the start of production. The contractor shall be responsible for maintaining adequate surveillance to assure that drawing requirements are being met throughout the life of the tool. Corrective action will be immediately instituted whenever a defective tool control dimension is found."

Paragraph 4.3.2.1.1, delete "Major" 101 and 102, and substitute the following:

"101.	True position primer hole with body basic diameter	Gage
102.	True position primer hole counterbore with primer hole	Gage".
