COMMERCIAL ITEM DESCRIPTION

ALUMINUM SULFATE, TECHNICAL

The General Services Administration has authorized the use of this commercial item description as a replacement for O-A-429D for all federal agencies.

1. SCOPE. This commercial item description covers technical grade aluminum sulfate, Chemical Abstract Service Registry Number (CAS #) 10043-01-3.

2. CLASSIFICATION. The aluminum sulfate shall conform to the following types and classes:

Type I - Purified
Type II - Unpurified

Class 1 - Lump
Class 2 - Ground
Class 3 - Rice Ground

3. SALIENT CHARACTERISTICS

3.1 Type I, Class 1 and 2 . Type I, Class 1 and 2 aluminum sulfate shall conform to the American National Standards Institute/American Water Works Association (ANSI/AWWA) specification B403-93.

3.2 Type I, Class 3. Type I, Class 3 aluminum sulfate shall conform to the ANSI/AWWA specification B403-93 except that rice ground aluminum sulfate shall be of such size that 80% shall be retained on an 850 micrometer (#20) sieve, minimum, and 2% shall be passed on a 150 micrometer (#100) sieve, maximum, and water insoluble material shall not exceed 10.0 percent.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any other data which may improve this document should be sent by letter to: Defense Supply Center Richmond, ATTN: DSCR-VBD, 8000 Jefferson Davis Highway, Richmond, VA 23297-5610.

AMSC N/A FSC 6810

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

3.3 Type II, Class 1 and 2. Type II, Class 1 and 2 aluminum sulfate shall conform to the American National Standards Institute/American Water Works Association (ANSI/AWWA) specification B403-93 with the exception that water insoluble material shall not exceed 10.0 percent.

3.4 Type II, Class 3. Type II, Class 3 aluminum sulfate shall conform to the ANSI/AWWA specification B403-93 except that rice ground aluminum sulfate shall be of such size that 80% shall be retained on an 850 micrometer (#20) sieve, minimum, and 2% shall be passed on a 150 micrometer (#100) sieve, maximum, and water insoluble material shall not exceed 10.0 percent.

4. REGULATORY REQUIREMENTS. Items shall be labeled, packed and marked in 3.2 accordance with Title 49 Code of Federal Regulations (CFR), Parts 100 to 199.

5. QUALITY ASSURANCE PROVISIONS

5.1 Product conformance. The products provided shall meet the salient characteristics of this commercial item description; conform to the producer's own drawings, specifications, standards, and quality assurance practices; and be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance.

5.2 Market acceptability. The item offered must have been sold to the government or commercial market.

6. PACKAGING. Preservation, packing, labeling, and marking shall be as specified in the contract or order.

7. NOTES

7.1 Source of documents.

7.1.1 American Water Works Association standards may be obtained from the American Water Works Association, 3121 S. Platte River Dr., Englewood, CO 80110.

7.1.2 The Code of Federal Regulations may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402-0001.

7.1.3 Chemical Abstract Service files and data base may be obtained from the Chemical Abstract Service, Customer Services, P.O. Box 3012, Columbus, OH 43210.

7.1.4 American National Standards Institute standards may be obtained from the American National Standards Institute Inc., 11 West 42nd St., New York, NY 10036.

7.2 Ordering data. Acquisition documents must specify the following:

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T09:57Z
Check the source to verify that this is the current version before use.

a. Title, name, and date of this commercial item description.
b. Type of chemical required, i.e. purified or unpurified.
c. Class of chemical required, i.e. lump, ground, or rice ground.
d. Unit quantity required.
e. Packaging requirements.

7.3 National stock numbers NSNs). NSNs 6810-00-686-5892 and 6810-00-281-7455 are the NSNs which correspond to this Commercial Item Description. These may not be all possible NSNs associated with this document.

7.4 Sources of supply. The following sources are known to meet the requirements of this Commercial Item Description. Competition is not limited to these suppliers.

General Chemical Company
90 East Halsey Rd
Parsippany, NJ 07054-0389

Rhone-Poulenc Basic Chemicals Co
One Corporate Dr.
Shelton, CT 06484

Kemwater North America
2151 Wilbur Ave.
Antioch, CA 94509
