COMMERCIAL ITEM DESCRIPTION

DISPLAY CASE, MECHANICALLY REFRIGERATED, BAKERY, COUNTER

The General Services Administration has authorized the use of this commercial item description.

Salient characteristics.

The display case shall be a self-contained unit constructed of anodized aluminum or stainless steel framed, clear tempered glass panels on the front, ends, and top. There shall be two fully insulated, mirrored, epoxy coated, rear sliding doors that move on roller assemblies on aluminum tracks. The display case shall have an air-cooled refrigeration unit with anti-condensation heaters and temperature controls. The case shall have a minimum holding capacity of 16 bun pans each measuring 18 inches by 26 inches. The dimensions of the display case shall be not greater than 77 inches long, 36 inches wide, and 50 inches high. The interior of the display case shall hold three adjustable, epoxy coated wire shelves. There shall be Underwriters Laboratories approved fluorescent light fixtures located at the top of the interior of the case and under each shelf and shall operate by an off-on switch.

Electrical characteristics. The display case shall be designed for operation on 115 volts, 60 Hertz, single phase power supply and shall not require more than 12 amperes. Wiring shall be in accordance with National Electrical Manufacturers Association (NEMA) WC 5 or NEMA WC 7.

Color. The display case shall be treated and painted in accordance with the manufacturer's standard practice. The finish color of the display case shall be semi-gloss flat white conforming to color number 27780 of FED-STD-595.

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

Preservation, packaging, packing, labeling, and marking. The preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.

Notes. Purchaser should specify preservation, packaging, packing, labeling, and marking required.
