COMMERCIAL ITEM DESCRIPTION

TRUCK, CAGE, SECURITY, STEEL

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a steel security cage truck used for distribution and storage of high-value items in warehouses and stores.

Salient characteristics.

The truck cage shall be constructed from heavy duty 3 gauge steel wire or expanded metal with openings of not greater than 2 1/2 inches square and welded to a rugged metal frame. Doors shall have positive latches. Locking shall be by double cam latches operating by a single throw lever capable of being locked by rim or padlock. The cage shall be mounted on a platform. Mounted on the underside of the platform shall be four securely mounted wheels with solid rubber or phenolic resin tires. The two rear wheels shall be fixed and the two front wheels shall be of the free swiveling type. All wheels shall be not less than 6 inches in diameter and 2 inches in width and shall be leveled to minimize superstructure twisting and flexing. The truck shall be capable of supporting 3,000 pounds and have a storage capacity of not less than
50 cubic feet. The outside dimensions shall be not greater than
30 inches in width, 58 inches in length, and 72 inches in height.

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

Preservation, packaging, packing, labeling, and marking. The preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.

Notes. Purchaser should specify preservation, packaging, packing, labeling, and marking required.

Doors shall be hinged to allow opening 270° and to rest flush with the sides of the cage.

FSC 3920

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.
