INTERIM AMENDMENT-3
July 20, 1961

Superseding
Int. Amend-2
November 15, 1960

INTERIM AMENDMENT TO

FEDERAL SPECIFICATION

STAKES, SHEET METALWORKING; AND
PLATE, BENCH STAKEHOLDER

This Interim Amendment was developed by the Standardization Division, Federal Supply Service, General Services Administration, Washington 25, D. C., based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above. The General Services Administration has authorized Federal agencies to use this Interim Amendment as a valid exception to Federal Specification GGC-S-731, dated May 31, 1956.

Page 2, paragraph 3.5.3.1: Delete second sentence and substitute: "One horn shall be circular in cross section and shall taper toward the shank at least 7 inches."

Page 2, table I, first column, under length: Delete tolerance "$\pm$ 1" and substitute "$^{+\ 2}_{-\ 1}$".

Page 5, table VII, last column: Delete and substitute the following:

Weight $\pm$1
Pounds
9-1/2

FSC 5120
