FEDERAL SPECIFICATION SHEET

STAMPING AND MARKING EQUIPMENT; RUBBER STAMP, HAND, FIXED TYPE

This specification was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

The complete requirements for procuring the rubber stamps described herein shall consist of this document and the issue in effect of Federal Specification GGG-S-735/GEN.

REQUIREMENTS:

Configuration: The stamp shall conform to the requirements specified on figure 1.

Materials: The stamp pattern and cushion shall be rubber which shall evidence not less than 15 nor more than 40 percent change in volume when tested for conformance with component and material inspection requirements of the general specification.

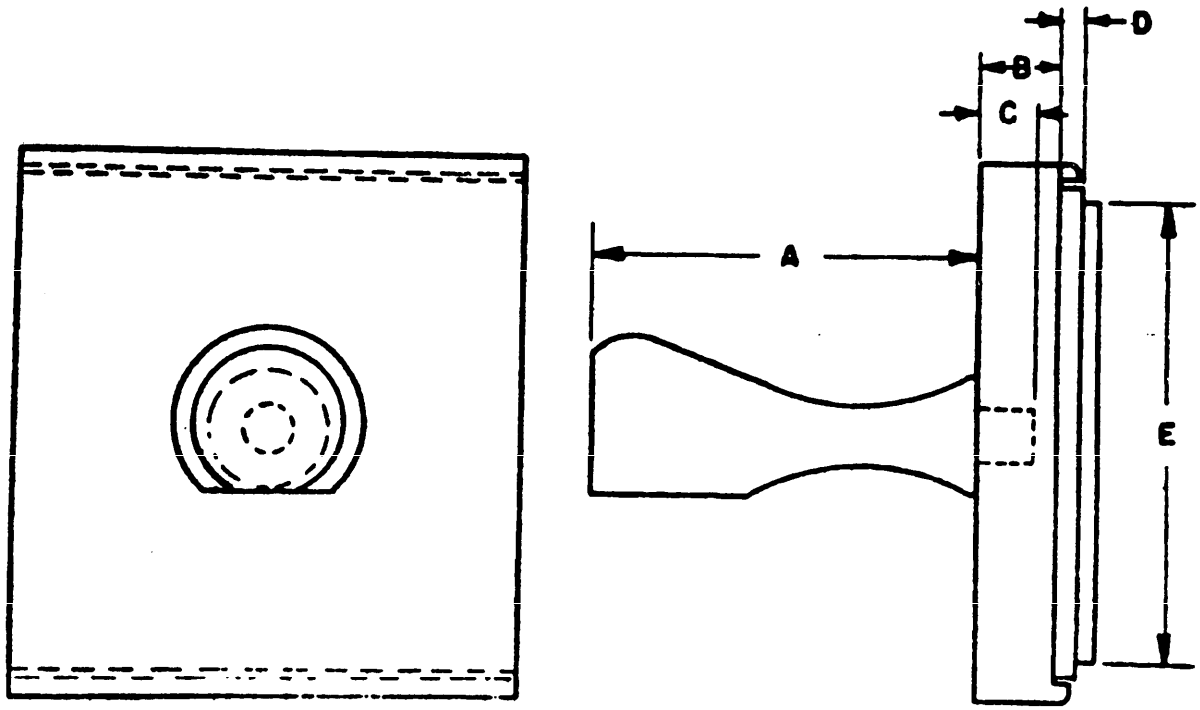

The stamp handle and block shall be wood, smoothly sanded with the top and two sides of the block coated with a finish which shall not soften or peel when tested for conformance with the end item test requirements of the general specification. The ends of the block may remain unfinished. The handle shall be firmly attached to the block and shall be painted with black enamel.

The pattern and cushion shall be glued together and to the bottom surface of the block and shall evidence no more than 1/4-inch separation from the block edge when tested for conformance with the end item test requirements of the general specification.

Part Number: GGGS735-2P - Partial Inspection Approval
GGGS735-2C - Complete Inspection Approval
