FEDERAL SPECIFICATION SHEET

STAMPING AND MARKING EQUIPMENT: DIES, LUMBER STAMPING, HAMMER TYPE

This specification was approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

The complete requirements for procuring the dies described herein shall consist of this document and the issue in effect of Federal Specification GGG-S-735/GEN.

REQUIREMENTS:

Configuration: The die shall conform to the requirements specified on figure 1.

Material: The die handle shall be wood with an oval eye end and shall be wedged into the die using the manufacturer's standard commercial practice.

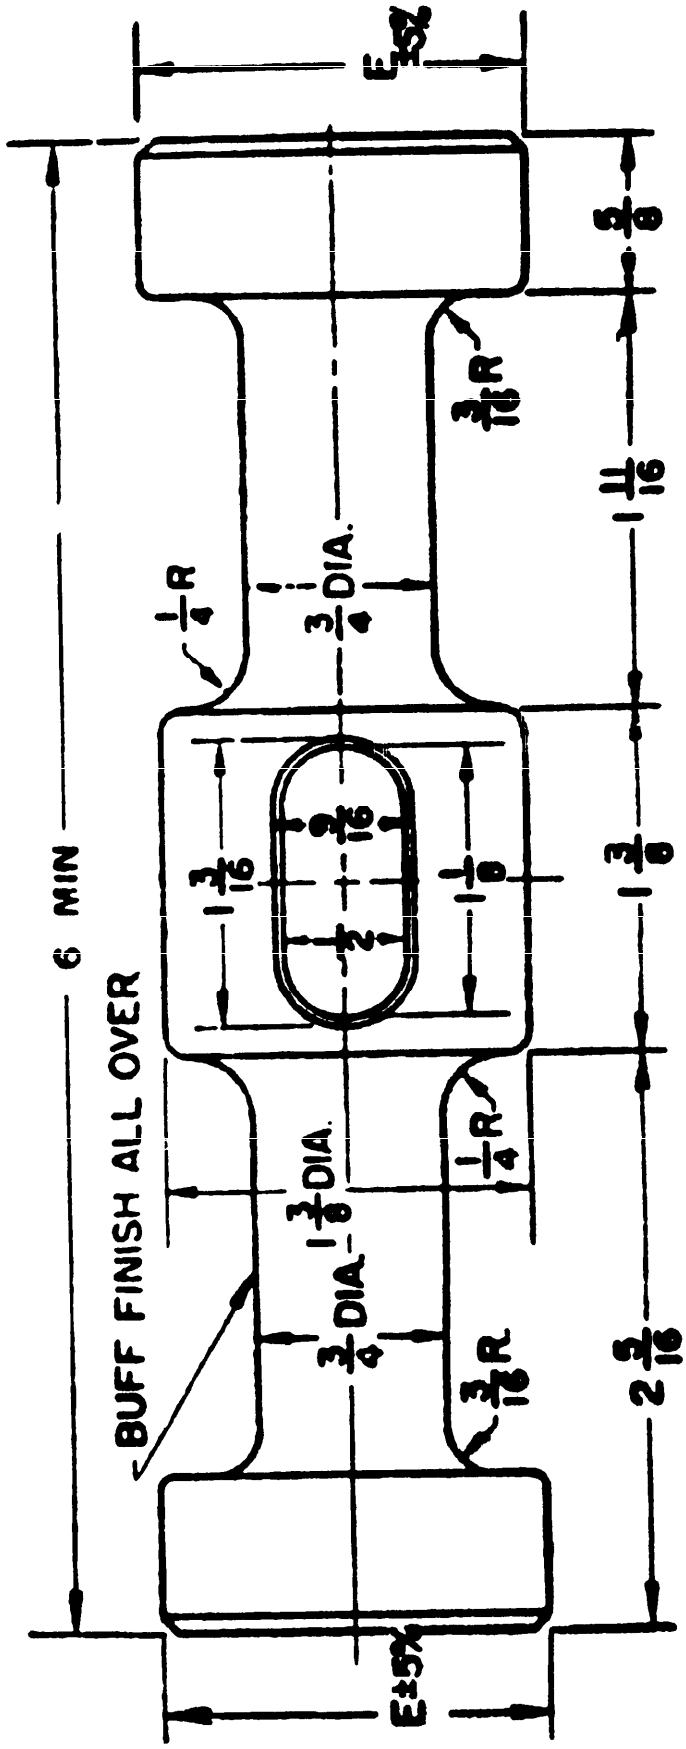

The die body shall be steel and shall show a Rockwell "C" hardness of 60 to 63 at the stamping ends or be case hardened to a reading on the Rockwell 15 N scale of no less than 90 nor more than 91.5 when tested for conformance with end item test requirements of the general specification.

The die pattern shall be cut at least 1/8-inch deep for the 1-1/2-inch size, and 3/32-inch deep for the 7/8-inch size and shall be constructed in such a manner as to produce a clearly legible impression when tested for conformance with the end item test requirements of the general specification. There shall be a complete inspection approval pattern on one face and a partial inspection approval pattern on the other.
