INTERIM AMENDMENT
TO
FEDERAL SPECIFICATION

CHIPBOARD

This interim amendment was developed by the General Services Administration, Federal Supply Service, Washington, DC 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification UU-C-282D, dated July 24, 1974.

PAGE 2

Paragraph 3.1 Add "The material offered shall contain not less than 100 percent of recovered materials. Recovered materials are defined as material which has been collected or recovered from solid waste. Solid waste is defined as any garbage, refuse, sludge from a waste treatment plant, water supply treatment plant, or air pollution control facility and other discarded material, including solid, liquid, semisolid, or contained gaseous material resulting from industrial, commercial, mining, and agricultural operations, and from community activities, but does not include solid or dissolved material in domestic sewage, or solid or dissolved materials in irrigation return flows or industrial discharges."

Add the following new paragraph:

4.1.1 Certification. The contractor shall certify in writing to the contracting officer or his representative that the material offered to the government contains recovered materials required by 3.1.
