INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

PAPER, TELETYPEWRITER, ROLL

This interim amendment was developed by the General Services Administration, Federal Supply Service, New York, N.Y. 10278, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to UU-P-547J dated July 17, 1972.

Paragraph 3.1, delete and substitute:

"3.1 Material. Materials used shall conform to the requirements specified herein. No polychlorinated biphenyls (PCB's) shall be added or used during the manufacture of the paper or in any coating operation on the base paper. The contractor shall submit a certificate stating that no polychlorinated biphenyls have been added or used during the manufacturing or converting operations (see 4.1.2.2).

In addition, the contractor shall certify that the product offered shall include a minimum of 50% waste paper (see 6.3). The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract."

Paragraph 3.5.2.1, delete and substitute:

"3.5.2.1 Type II. The 12-1/2 inch width type II roll shall have a diameter of not less than 15 inches and not more than 15-1/8 inches. The 8-25/64 inch width type II roll shall have a length of not less than 325 feet and a diameter of not more than 5 inches."

PAGE 8

In table IV, in the "Test methods" column, change "4.4.3" to "4.4.2" and change "4.4.3.2" to "4.4.2.3".

PAGE 9

Paragraph 4.4.2, first sentence, delete and substitute: "The roll of teletypewriter paper to be tested shall be set up in a teletypewriter equipped for sending messages by means of perforated tape mechanism. Alternatively, when appropriate teletypewriter equipment for the type roll to be tested is not accessible, an electric typewriter may be used."

Delete paragraph 4.4.2.3 and substitute with:

"4.4.2.3 Copyability. After examination of the message copy in accordance with 4.4.2 and 4.4.2.1, prepare a copy of the original and all copies of the message on a Xerox Model 1035 copier or equivalent copier, without the aid of a transparency. All letters and words on all of the xerographic copies shall be readily distinguishable for the lot to be considered acceptable."

Delete last sentence of paragraph 5.3 and substitute:

"When specified, the shipping container shall be marked "Store in cool place".

PAGE 10

After paragraph 6.2, add:

"6.3 Definition.

"Waste paper" means any of the following materials:

(1) Postconsumer materials such as:
(i) Paper, paperboard, and fibrous wastes from retail stores, office buildings, homes, and so forth, after they have passed through their end usage as a consumer item, including: Used corrugated boxes, old newspapers, old magazines, mixed waste paper, tabulating cards, and used cordage, and
(ii) All paper, paperboard, and fibrous wastes that enter and are collected from municipal solid waste; and
(2) Manufacturing, forest residues, and other wastes such as:
(i) Dry paper and paperboard waste generated after completion of the papermaking process (that is, those manufacturing operations up to and including the cutting and trimming of the paper machine reel into smaller rolls or rough sheets) including: Envelope cuttings, bindery trimmings, and other paper and paperboard waste, resulting form printing, cutting, forming, and other converting operations; bag, box, and carton manufacturing wastes; and butt rolls, mill wrappers, and rejected unused stock; and;
(ii) Finished paper and paperboard from obsolete inventories of paper and paperboard manufacturers, merchants, wholesalers, dealers, printers, converters, or others;"
