MILITARY SPECIFICATION

MOUNT 7694893

1. SCOPE

1.1 This specification covers one type of mount known as Mount 7694893, which is used with Azimuth Indicator T23, to indicate azimuth deflection.

2. APPLICABLE SPECIFICATIONS AND DRAWINGS

2.1 Specifications.- The following specifications and specifications referenced on drawings in 2.2, of the issue in effect on the date of invitation for bids, form a part of this specification:

FEDERAL SPECIFICATIONS

NN-B-601	Boxes; Wood-Cleated-Plywood
NN-B-621	Boxes; Wood, Nailed and Lock-Corner
NN-B-631	Boxes; Wood, Wirebound, for Domestic Shipment

MILITARY SPECIFICATIONS

JAN-P-100	Packaging and Packing for Overseas Shipment - General Specification
JAN-P-105	Packaging and Packing for Overseas Shipment - Boxes, Wood Cleated, Plywood
JAN-P-106	Packaging and Packing for Overseas Shipment - Boxes, Wood, Nailed
JAN-P-108	Packaging and Packing for Overseas Shipment - Boxes, Fiberboard (V-Board and W-Board) Exterior and Interior
JAN-P-116	Packaging and Packing for Overseas Shipment - Preservation, Methods of
JAN-P-125	Packaging and Packing for Overseas Shipment - Barrier-Materials, Waterproof, Flexible
JAN-P-140	Packaging and Packing for Overseas Shipment - Adhesives, Water-Resistant, Case Liner

U. S. ARMY SPECIFICATIONS

2-134	Grease; Lubricating, Instrument
51-7	Instruments, Fire Control; General Specification Governing the Manufacture and Inspection of
100-2	Standard Specification for Marking Shipments by Contractors

(Copies of specifications should be obtained from the procuring agency or as directed by that agency. Both the title and identifying number should be stipulated when requesting copies.)

2.2 Drawings.- The following drawings and all drawings referenced thereon, of the issue in effect on the date of invitation for bids form a part of this specification:

ARMY ORDNANCE DEPARTMENT DRAWINGS

E7694893	Mount 7694893
B7633839	Cleaning, Preserving, Packaging (Methods O, I and IA), Packing and Marking of Fire Control Materiel Spare Parts for Domestic Shipment and Storage, and Export Shipment

(Copies of drawings should be obtained from the procuring agency or as directed by that agency. Both the title and the identifying number should be stipulated when requesting copies.)

3. REQUIREMENTS

3.1 General requirements and associated tests common to all fire control instruments as contained in Specification 51-7 shall be mandatory in so far as they are applicable.

3.2 Materials shall be in accordance with drawings, general specifications and material specifications forming part of this specification.

3.3 Backlash.- The backlash between the input coupling and the output shaft (serrated coupling) of the mount shall not exceed 1 degree of rotation.

3.4 Temperature.- Temperature requirements specified in Specification 51-7 for type III instruments shall apply, except that -65°F shall be substituted for -45°F.

3.5 Lubrication.- Grease which meets the requirements of Specification 2-134 shall be used for lubrication.

3.6 Workmanship shall be in accordance with Specification 51-7.

4. SAMPLING, INSPECTION AND TEST PROCEDURES

4.1 Unless otherwise specified, each mount and spare part shall be inspected for conformance with this specification and as specified in Specification 51-7.

4.2 Temperature Test specified in Specification 51-7 for Type III instruments shall apply except that -65°F shall be substituted for -45°F.

5. PREPARATION FOR DELIVERY

5.1 Packaging

5.1.1 Each mount shall be cleaned and unit packaged in accordance with the requirements of Specification JAN-P-116, Method I, Type P5 preservative shall be applied on unprotected metal surfaces and the mount shall be wrapped with greaseproof barrier material.

5.1.2 The greaseproof barrier covered mount shall be immobilized in a fiberboard box, conforming to Specification JAN-P-108. Other packaging materials shall conform with the general requirements of Specification JAN-P-100.

5.2 Packing

5.2.1 For Domestic Shipment.- The mounts, packaged as described in paragraph 5.1, shall be packed in a shipping container conforming with the requirements of one of the following Federal Specifications:

NN-B-601 - Style A or B, Wood-Cleated, Plywood Box
NN-B-621 - Style 2 or 4, Nailed Wood Box
NN-B-631 - Wirebound Box

5.2.2 For Export Shipment.- The mounts, packaged as described in paragraph 5.1, shall be packed in a shipping container conforming with the requirements of either Specification JAN-P-106 (style 2 or 4) or Specification JAN-P-105 (style A or B). Each box shall contain a water resistant bag or case liner (in which the contents are packed) fabricated from material conforming with the applicable requirements of Specification JAN-P-125. Closures shall be completely sealed with a continuous seam, at least 3/4 inch wide, of water resistant adhesive complying with the requirements of Specification JAN-P-140.

5.2.3 The contents of both domestic and export shipping containers shall be immobilized. The gross weight shall not exceed 200 pounds for domestic shipments or 70 pounds for export shipments.

5.3 Marking.- In addition to any special marking required by the contract or order, shipments shall be marked in accordance with the applicable requirements of Specification 100-2.

5.3.1 Each package shall be identified by marking or printing the proper data on the package or by attaching a label to the package.
