INCH-POUND

MIL-C-40124E
AMENDMENT-2
20 April 1990
SUPERSEDING
AMENDMENT-1
17 April 1986

MILITARY SPECIFICATION

CANTEEN, WATER, INSULATED, CORROSION-RESISTING STEEL,

WITHOUT CUP AND COVER

This amendment forms a part of Military Specification MIL-C-40124E, dated 20 September 1982, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 2

2.1, under SPECIFICATIONS, FEDERAL, delete "QQ-W-423, Wire, Steel, Corrosion-Resisting".

PAGE 3

2.2, under "AMERICAN SOCIETY FOR TESTING AND MATERIALS", after method "A 269" Add "A 580 - Stainless and Heat-Resisting Steel Wire"

PAGE 4

3.2.2: Delete and substitute:

"3.2.2 Wire, stainless and heat-resisting, steel. Stainless and heat-resisting steel wire shall conform to ASTM A 580."

PAGE 6

3.3.5.1, line 2, at the end of the first sentence: Add ", except that plasma arc welding may be used as an alternative for assembling the saddle to the inner shell and to assemble the inner neck tube to the inner shell."

PAGE 7

3.4.2, line 3, after "hydroblast": Add "or dry blast".
Last line, Add the following: "The grit shall be new, clean, and not reused."

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

PAGE 8

TABLE I: Between "Electrodes..." and "Evacuation..." Add:

"Plasma arc welding alternate method
for assembling the saddle to the shell
and the inner neck tube to the inner shell 3.3.5.1"

PAGE 9

* TABLE II, opposite "Weldment (neck tube)": Delete the defect "Bottom edge of neck tube out of line with inner surface of body by more than 1/64 inch".

PAGE 10

* TABLE IV, opposite "Welding of inner cover to inner body and of inner neck tube to inner body": Add the following new defect:

"Bottom edge of neck tube out of line with inner surface of body by more than 1/64 inch."

PAGE 15

* TABLE VI: Delete "Interior of canteen" and the related two defects and "Note:".

PAGE 16

* TABLE VI: Delete "Welding of inner shell cover to inner body" and the five related defects.

PAGE 19

6.6: Delete and substitute:

"6.6 First article. When a first article is required, it shall be inspected and approved under the appropriate provisions of FAR 52.209. The first article should be a preproduction sample. The contracting officer should specify the appropriate type of first article and the number of units to be furnished. The contracting officer should also include specific instructions in acquisition documents regarding arrangements for selection, inspection, and approval of the first article."

NOTE: Changes from the previous amendment. The margins of this amendment are marked with asterisks to indicate where changes (additions, modifications, corrections, deletions) from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any
