NOTES:

1. Dimensions are in inches. Metric equivalents are given for information only.
2. The illustration is for identification purposes only and is not intended to restrict designs and shapes of fastening devices, which conform to the requirements and are within the envelope dimensions.

FIGURE 1. Oil cup, type D hinged cap – Continued.

REQUIREMENTS:

Design and construction:

Configuration: See figure 1.

The oil cups shall have a cap hinged to, and making a dustproof joint, with the body. The body shall be provided with a central tube through which the oil will be siphoned by wick. The oil cups shall be similar to figure 1, and shall conform to the capacities and dimensions shown on figure 1, as specified.

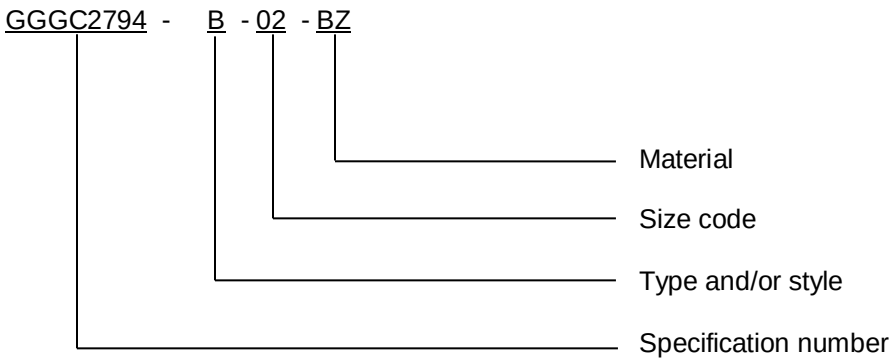
The classification of the oil cups covered under this specification sheet is as follows:

Type D - Hinged cap

Materials and finishes.

Materials and finishes for the oil cups shall be in accordance with GGG-C-2794.

The Part or Identifying Number (PIN) consists of the specification identifier (GGGC2794), the classification type and style, and from the applicable table, the size code number, and the body material code.



PIN example: GGGC2794-D-01-CU
