3. REQUIREMENTS

3.1 Potatoes. Peeled potatoes shall be clean, sound, fresh tubers of the potato plant prepared by washing, peeling, trimming, sorting, and by proper treatment to prevent discoloration, by the use of sulfur dioxide (SO_2) or other means which may be permissible under the provisions of the Federal Food, Drug and Cosmetic Act and Regulations Promulgated Thereunder.

3.2 Description of grades and styles. The interpretation of grades and styles shall be in accordance with the United States Standards for Grades of Peeled Potatoes in effect on date of invitation for bids.

3.3 Workmanship. The Product shall be prepared, processed, and packaged under modern sanitary conditions and in accordance with good commercial practice. For military agencies the product shall be processed in establishments meeting the requirements of MIL-STD-668.

3.4 Storage and transit temperature. After packaging, the peeled potatoes shall be held at a temperature which will preclude freezing, but not exceeding 40°F., during storage and in transit.

4. QUALITY ASSURANCE PROVISIONS

4.1 Sampling. Samples of the finished product covered by this specification and samples of any materials, components or constitutents entering into the preparation of the finished products may be taken at any time by the Government inspector to determine compliance with the requirements.

4.2 Inspection.

4.2.1 General. Inspection shall be made by the procuring agency or a duly authorized representative, at the time and place designated by the procuring agency. It may be made at the site of manufacture, both during and after processing and packaging, at any suitable point in transit, and after delivery to the point of destination.

4.2.2 Factory inspection. The passing as satisfactory of any detail of processing or materials shall not relieve the supplier of responsibility of faulty workmanship or materials which may be discovered at any time prior to final acceptance.

4.2.3 Final inspection. Unless otherwise specified, final inspection shall be made after delivery to the initial point of domestic destination.

4.2.4 Condition inspection of containers. When inspection of product for quality and condition is performed by the U.S. Department of Agriculture, the United States Standards for Condition of Food Containers shall apply. (For applicable criteria governing inspection of containers for the Military, see 4.2.7.2).

4.2.5 Responsibility for inspection. The supplier is responsible for meeting all the provisions of the specification prior to submission of supplies to Government for acceptance. Unless otherwise specified in the contract or order, the supplier is required to furnish an official inspection certificate issued by the U.S. Department of Agriculture certifying that the grade and style of the product supplied is as required by the contract or order.

4.2.5.1 Inspection records of the examination and tests shall be complete and made available to the Government as specified in the contract or order. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements.

4.2.6 Preacceptance inspection (plant sanitation inspection) for Military agencies. Product shall be rejected if produced in plants not meeting the requirements of MIL-STD-668.

4.2.7 Process examination. Examination shall be performed during processing of potatoes to determine conformance to required procedures specified in 3.1. In addition, records of storage temperatures shall be maintained in order to determine conformance to 3.4. Nonconformance to requirements shall be cause for rejection of the involved finished product.

4.2.7.1 Inspection for style and grade. Determination of style and grade shall be in accordance with the United States Standards for Grades of Peeled Potatoes. Nonconformance to style requirements or a grade lower than that specified shall be cause for rejection of the lot.

4.2.7.2 Examination of packaging, packing, labeling and marking. Nonconformance to section 5 shall be cause for rejection of the lot.

4.2.8 Standby test samples. The Government reserves the right to withdraw and hold standby test samples of components or finished product or both (quantity of which shall be not more than twice that required by this specification) for inspection purposes. These samples, if not used, will be returned to the vendor.

4.3 Tests. Test procedures and controls which differ from those specified herein, may be used by the supplier if they provide a quality assurance equivalent to that specified. If the Government inspection activity determines that such procedures and controls do not provide, as a minimum, such quality assurance, the supplier will use the test procedures set forth herein. In case of dispute as to test results, the test methods specified herein will govern.

4.3.1 Chemical analyses. Unless otherwise specified (see 6.1), chemical analyses, if required by the purchaser, shall be made in accordance with the Official Methods of Analysis of the Association of Official Agricultural Chemists in effect on the date of the invitation for bids, or in accordance with methods that give equivalent results.

5. PREPARATION FOR DELIVERY

5.1 Packaging, level C. The peeled, fresh, white potatoes, in the styles and quantity as specified, shall be packaged in a polyethylene bag, which shall be closed, in a manner which will afford adequate protection against spilling, damage and deterioration during shipment from the supply source to the first receiving activity. The supplier may use his standard practice when it meets these requirements.

5.2 Packing, level C. The peeled, fresh, white potatoes shall be packed in a manner to insure carrier acceptance and safe delivery to destination at the lowest transportation rate for such supplies. The shipping container shall be in accordance with the Uniform Freight Classification Rules or National Motor Freight Classification Rules, as applicable.

5.3 Labeling and marking.

5.3.1 Packages. Unless otherwise specified (see 6.1), packages of peeled, fresh, white potatoes shall be labeled in accordance with the Federal Food, Drug and Cosmetic Act and Regulations Promulgated Thereunder.

5.3.2 Shipping containers. Shipping containers shall be marked as specified in the contract or order (see 6.1).

6. NOTES

6.1 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents:

(a) Title, number, and date of the specification.
(b) Grade and style of product required (see 1.2.1).
(c) When chemical analyses are required (see 4.3.1).
(d) When labeling of packages is not required (see 5.3.1).
(e) Marking required for shipping containers (see 5.3.2).
