COMMERCIAL ITEM DESCRIPTION

BOX, FILING, STEEL

The General Services Administration has authorized the use of this commercial item description by all Federal agencies.

A. SCOPE

This commercial item description covers steel filing boxes which are intended for filing and storing index cards.

B. CLASSIFICATION

The Filing Boxes shall have the dimensions listed in Table I and be suitable for storing 7.62 x 12.70 cm (3 x 5 IN.), 10.16 x 15.24 cm (4 x 6 IN.) or 12.70 x 20.32 cm (5 x 8 IN.) cards, as applicable.

C. SALIENT CHARATERISTICS

1. Boxes shall be made of steel not less than 0.05 cm (0.02 IN.) thick.

2. Boxes shall consist of a lid and base. The lid shall open not less than 90 degrees and be fastened to the base using either one or two hinges located along the width dimension. If one hinge is used, the length shall be not less than 2/3 the width of the box. If two hinges are used, each hinge shall be not less than 1/3 the width of the box. When the box is closed, the lid shall rest squarely on a ledge and be flush with the vertical walls of the base.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: The General Services Administration, Office Supplies and Paper products Commodity Center, Engineering Branch, New York, N.Y. 10278.

3. Boxes shall have all surfaces coated with finishing enamel. The coating shall be smooth and uniform without runs, wrinkles, cracks, grit, blisters, lumps, areas with no film or areas with thin film. Using a 2H pencil, there shall be no evidence of exposed metal when the coating is tested as specified in ASTM D 3363.

4. Boxes shall not mar the surface on which it rests.

5. Workmanship. The box shall be free from any defects which affect appearance, serviceability or present a hazard to the end user.

TABLE I. Minimum Inside Dimensions

Size	Height	Width	Depth (capacity)
1 7.62 x 12.70 cm (3 x 5 IN.)	8.89 cm (3-1/2 IN.)	12.86 cm (5-1/16 IN.)	15.24 cm (6 IN.)
2 10.16 x 15.24 cm (4 x 6 IN.)	11.43 cm (4-1/2 IN.)	15.40 cm (6-1/16 IN.)	12.70 cm (5 IN.)
3 12.70 x 20.32 cm (5 x 8 IN.)	13.97 cm (5-1/2 IN.)	20.48 cm (8-1/16 IN.)	12.70 cm (5 IN.)

D. REGULATORY REQUIREMENTS

In accordance with section 23.403 of the Federal Acquisition Regulations, the government's policy is to acquire items composed of the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition without adversely affecting performance requirements of exposing suppliers' employees to undue hazards from the recovered materials.

E. QUALITY ASSURANCE PROVISIONS

1. Contractor Certification. The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commmercial Item Description, and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Check the source to verify that this is the current version before use.

2. Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements.

3. Each lot of boxes shall be inspected for conformance to the requirements herein. Inspection shall be in accordance with MIL-STD-105 using the sampling plans specified below.

4. Visual characteristics - Inspection level S-4 with an Acceptable Quality level (AQL) of 4.0 percent defective. The sample unit shall be one box.

5. Dimensional characteristics - Inspection level S-2 with an Acceptable Quality level (AQL) of 4.0 percent defective. The sample unit shall be one box.

F. PACKAGING.

Pakaging, packing, labeling and marking shall be as specified in the contract or order.

G. NOTES.

1. Application for Copies of Documents Referenced Herein:

The issue date in effect on date of invitation for bids or request for proposal shall apply.

1.1 MIL-STD-105 "Sampling Procedures and Tables for Inspection by Attributes" is available from Standardization Documents Order Desk; Building 4D; 700 Robbins Avenue; Philadelphia, PA 19111-5094.

1.2 ASTM D3363 "Standard Test Method for Film Hardness by Pencil Test" is available from the American Society for Testing and Materials, 1916 Race Street, Philadelphia, Pa. 19103.

2. Part Identification Number.

The following part identification numbering procedure is for government purposes and does not constitute a requirement for the contractor.
