COMMERCIAL ITEM DESCRIPTION

JUICE, LEMON, RECONSTITUTED

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description in preference to Federal Specification Z-J-1843.

This Commercial Item Description (CID) covers reconstituted lemon juice, packed in commercially acceptable containers, suitable for use by the Federal Government.

Salient characteristics.

The frozen concentrated lemon juice used for reconstitution shall be prepared from unfermented juice obtained from mature lemons of one or more of the high-acid varieties. The product shall contain the concentrated juices of clean, sound, mature, high-acid lemons, and may contain lemon oil or lemon essence (derived from lemons) and safe and suitable preservatives. The lemon oil shall be cold-pressed, free of terebinthine odor, and shall meet the requirements for lemon oil specified in the Food Chemicals Codex. The concentrated product shall be promptly frozen to a temperature of 0°F (-18°C) or lower

The reconstituted juice shall possess a good typical yellow color and a distinct characteristic lemon flavor and odor. The product shall contain no coagulation of the pulp. The finished product shall be practically free from seeds or seed particles, particles of membrane, core, peel, and other extraneous plant material that may adversely affect the appearance or quality. The

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: Head, Food Quality Assurance Staff, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Room 2506, South Building, P.O. Box 96456, Washington, DC 20090-6456.

acid content, calculated as anhydrous citric acid, shall be not less than 5.0 grams per 100 mL of reconstituted lemon juice. The packaged product shall be maintained at a temperature of not less than 40°F (4.4°C).

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics and requirements of this CID; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories or possessions; and is sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace. All deliveries shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Quality assurance.

When the solicitation, contract, or purchase order requires that product quality or acceptability or both be determined, the Processed Products Branch (PPB), Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, shall be the certifying activity and shall make the determination in accordance with applicable PPB provisions. The product shall be examined or analyzed or both in accordance with applicable provisions in the CID, and when applicable, the United States Standards for Condition of Food Containers.

Preservation, packaging, packing, labeling, and marking.

The reconstituted lemon juice shall be preserved, packaged, packed, labeled, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with the National Motor Freight Classification or Uniform Freight Classification, as applicable.
