COMMERCIAL ITEM DESCRIPTION

CABBAGE, FRESH, SHREDDED

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description.

This Commercial Item Description (CID) covers fresh, shredded, ready-to-use cabbage, packed in commercially acceptable containers, suitable for use by the Federal Government.

Salient characteristics.

The fresh shredded cabbage shall conform to the variety and thickness in the following list which shall be specified, as required, in the solicitation, contract, or purchase order.

Varieties (color) and thicknesses.

Variety I - Green
Variety II - Red

Thickness 1 - 1/16 inch (0.1588 cm) 1/
Thickness 2 - 1/8 inch (0.3175 cm) 1/
Thickness 3 - 3/16 inch (0.4763 cm) 1/

1/ Not more than 10 percent, by count, of shreds shall be ± 1/16 inch (0.1588 cm), as applicable, of the thickness specified.

Beneficial comments, recommendations, additions, deletions, clarifications, etc., and any data which may improve this document should be sent to: Head, Food Quality Assurance Staff, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Room 2506, South Building, P.O. Box 96456, Washington, DC 20090-6456.

The cabbage shall be clean; sound without decay, off-odors, off-colors; and of the mature green or red varieties as specified. The cabbage heads shall be properly trimmed to remove outer leaves and discolored, damaged, or diseased portions. The core shall be removed.

The cabbage shall be uniformly cut (sliced) to yield shreds of the thickness specified. The shredded cabbage may be treated with antioxidants which are listed on the Food and Drug Administration's Generally Recognized as Safe list. However, shredded cabbage intended for use in the fresh state shall not be treated with sulfur dioxide or other sulfiting agents as prohibited under provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

The shreds shall be firm, fresh, and crisp and not soft or tough. The shreds shall not be bitter in flavor.

The fresh shredded cabbage shall be practically free of defects such as large pieces of leaves, pieces of dead leaves, pieces of core, spotted shreds, or other similar blemishes which materially affect the appearance or eating quality. Presence of any decay, off-odor, off-color, or foreign material (e.g.; metal, glass, wood, paint, insect parts) shall be cause for rejection.

The fresh shredded cabbage shall be kept under refrigeration to maintain quality. Unless otherwise recommended, temperatures greater than 32°F (0°C) but not more than 40°F (4.4°C) are recommended.

Contractor's certification.

By submitting an offer, the contractor certifies that the fresh shredded cabbage offered meets the specified salient characteristics and requirements of this CID; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The fresh shredded cabbage shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product within the commercial marketplace. The fresh shredded

cabbage shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Quality assurance.

When required in the solicitation, contract, or purchase order, the Fresh Products Branch (FPB), Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture will determine the quality assurance of the fresh shredded cabbage according to FPB procedures. The fresh shredded cabbage shall be examined or analyzed in accordance with applicable provisions in the CID, and when applicable, the United States Standards for Condition of Food Containers currently in effect on the date of the solicitation.

Preservation, packaging, packing, labeling, and marking.

The fresh shredded cabbage shall be preserved, packaged, packed, labeled, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with the National Motor Freight Classification or Uniform Freight Classification, as applicable.

For Department of Defense procurements.

The following requirements are applicable when specified by the contracting officer.

A. Commercial packaging. Five pounds (2.268 kg) of cabbage shall be packaged in a polyethylene bag in accordance with good commercial practice.

B. Commercial packing. Forty pounds (18.144 kg) of packaged cabbage shall be packed in fiberboard boxes complying with Uniform Freight Classification or National Motor Freight Classification.

C. Unit loads. Shipping containers shall be arranged in unit loads in accordance with MIL-L-35078. When unit loads are strapped, strapping shall be limited to nonmetallic strapping, except for Type II, Class F loads.

D. Labeling. Commercial labeling shall be acceptable.

E. Marking. Marking of shipping containers and unit loads shall be in accordance with MIL-STD-129.
