COMMERCIAL ITEM DESCRIPTION

CAKE MIX, CHEESE, UNBAKED

The U.S. Department of Agriculture has authorized the use of this commercial item description in preference to Military Specification MIL-C-43872.

This Commercial Item Description (CID) covers unbaked cheese cake mix, packed in commercially acceptable containers, suitable for use by the Federal Government.

Salient characteristics.

The cheese cake mix shall be prepared from ingredients which comply with the applicable Food and Drug Regulations. If not defined, the appropriate Food Chemicals Codex shall be referenced for purity as appropriate for dry dairy products, dried baker's cheese, sugars, shortening, stabilizers, emulsifiers, flavors, colors, buffers, salt, leavening agents, and preservatives. Other optional ingredients may be used. Ingredients derived from milk shall be certified as salmonella negative by a plant, government or commercial laboratory and shall be manufactured in a plant approved by the Dairy Grading Section, Dairy Division, U.S. Department of Agriculture. The moisture of the dry mix product shall not exceed 2.0 percent when tested by the Vacuum Drying Method of the Official Methods of Analysis of the Association of Official Analytical Chemists.

The cheese cake mix shall be prepared by combining 302 grams of the mix with 454 milliliters (16 fluid ounces) of reconstituted nonfat dry milk (e.g., 46 grams of nonfat dry milk and 426 milliliters (15 fluid ounces) of water). Place cold milk in bowl. Add filling mix. Blend well with mechanical mixer at low speed for 1 minute, scrape down bowl, and beat for 2 minutes at medium speed. Pour filling mix into a 22.9 cm (9 inch) preformed graham cracker shell. Chill 1 hour. Immediately examine prepared cheese cake for flavor, texture, and consistency. The prepared product, when chilled at least 1 hour, shall be rigid enough to slice cleanly and the filling shall show no evidence of weeping (liquid separation). The color, odor, flavor, and texture shall be characteristic of a nonbaked type cheese cake.

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics and requirements of this CID; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and

storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin, and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace. All deliveries shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Quality assurance.

When required in the solicitation, contract, or purchase order, the Federal Grain Inspection Service (FGIS), U.S. Department of Agriculture, will determine the quality assurance of the cheese cake mix according to FGIS procedures. The product shall be examined and/or analyzed in accordance with applicable provisions in the CID, and when applicable, the United States Standards for Condition of Food Containers currently in effect on the date of the solicitation.

Preservation, packaging, packing, labeling, and marking.

The cheese cake mix shall be preserved, packaged, packed, labeled, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with National Motor Freight Classification or Uniform Freight Classification, as applicable.

For Department of Defense procurements.

The following requirements are applicable when specified by the contracting officer:

A. Commercial packaging. Four pounds of cheese cake mix shall be packaged in a heat sealed, foil-laminated bag.

B. Commercial packing. Twelve bags shall be packed in fiberboard boxes complying with Uniform Freight Classification or National Motor Freight Classification.

C. Export packaging. Same as commercial packaging.

D. Export packing. Twelve bags shall be packed in a fiberboard box constructed, closed, and reinforced in accordance with grade V3c, V3s, or V4s, Style RSC of PPP-B-636. Reinforcement shall be limited to nonmetallic strapping or pressure-sensitive adhesive, filament-reinforced tape.

E. Unit loads (commercial and export). Shipping containers shall be arranged in unit loads in accordance with MIL-L-35078. When unit loads are strapped, the strapping shall be limited to nonmetallic strapping, except for Type II, class F loads.

F. Labeling (commercial and export). Commercial labeling shall be acceptable.

G. Marking (commercial and export). Marking of shipping containers and unit load shall be in accordance with MIL-STD-129.

Notes.
