COMMERCIAL ITEM DESCRIPTION

BROOM, UPRIGHT (CORN)

The General Services Administration has authorized the use of this commercial item description, for all Federal agencies.

1. SCOPE

1.1 Scope. This commercial item description covers three sizes of upright brooms with corn fiber broom bodies and wooden handles.

2. CLASSIFICATION

2.1 Classification. The brooms shall be of the following sizes:

Size 1 - 8 lbs/dz, Hearth Broom (3.6 kg/dz)
Size 2 - 28 lbs/dz, Parlor Broom (12.7 kg/dz)
Size 3 - 36 lbs/dz, Warehouse Broom (16.3 kg/dz)

3. SALIENT CHARACTERISTICS

3.1 Material. At the option of the manufacturer, the broom shall be composed of 100% broomcorn (see 3.1.1), or broomcorn and other vegetable fibers (see 3.1.2). When vegetable fibers are used, the broom body shall be composed of 66% minimum by weight broomcorn and 34% maximum by weight other vegetable fibers. Vegetable fibers shall be restricted to the underwork in an amount not to exceed 50% by weight of the handle corn and shoulder corn. The vegetable fiber shall not be used for outside or inside hurl.

3.1.1 Broomcorn. The broomcorn fibers for the size 1 and size 2 brooms shall be any fine or medium gage of any natural growth color. The broomcorn fibers for the size 3 brooms shall be any fine, medium or coarse gage of any natural growth color. Hurl broomcorn fibers shall be free from all defects except red, wavy, or stained fibers in medium degree. Fibers for inside or underwork shall be free from all defects except burly growth, large spikes, and severe degree burn. All fibers shall be free from seed with the greatest amount of seed fiber retained.

3.1.2 Other vegetable fibers. The vegetable fibers permitted shall be in the underwork only and shall be palmyra stalks, palmetto fiber, split rattan, prime quality piassava fiber, African bass, shredded palm leave, Navajo fiber, or New Mexico yucca. All fibers shall be free from seed with the greatest amount of seed fiber retained.

3.1.3 Color. A light green broom dye shall be permitted.

3.2 Handle. The handle shall be produced from wood suitable for the purpose. The finished handle shall be straight enough that it will not allow a gap of more than 3/8 inch (9.5 mm) when the broom handle is rolled on a flat surface. The wood shall be straight grained, thoroughly seasoned, and free from defects in appearance and defects that might affect serviceability or durability. Handles made from Douglas fir or southern yellow pine shall be finished with a clear waterproof coating, other woods may be uncoated.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Engineering Group (7FXEE), 819 Taylor Street, Fort Worth, TX 76102

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

3.3 Broom twine. The broom twine may be natural or synthetic, and shall have a minimum breaking strength of 42 pounds (187 N). Synthetic twine shall have a melting point above 310°F (154°C). All twine shall be tight with no loose ends.

3.4 Broom wire. The broom wire shall be a corrosion resistant steel. The diameter of the wire shall be 0.038 inch (0.97 mm) minimum.

3.5 Construction. The broom shall meet the dimensional requirements of Table I. The upper end (neck) of the broom shall be given a rundown finish caused by the wire being helically wound around the upper end (neck) of the broom and the wire secured to the handle. The wire shall be secured in such a manner that no sharp ends are exposed. The ends of the fibers shall form a flat, even, and dense working surface. The layers of fibers shall be secured to the handle with broom wire and fastened. The broom body shall be tied in place by stitching with the broom twine.

3.6 Weight. The weights of the brooms shall be as specified in table I. The weight per dozen shall be as measured on 12 randomly selected brooms.

3.7 Special marking. The handle of the broom shall be permanently marked with the manufacture's name or recognized trade mark.

Table I, Dimensional Requirements

	Size 1	Size 2	Size 3
Neck Length, min.	1 inch (2.5 cm)	1-1/2 inches (3.8 cm)	2 inches (5.1 cm)
Broom body			
Width, inches (cm)	6 to 8 (15.2 to 20.3)	11 to 12-1/2 (27.9 to 31.8)	12 to 14 (30.5 to 35.6)
Length, inches (cm)	12 to 13 (30.5 to 33.0)	15 to 16 (38.1 to 40.6)	17 to 18 (43.2 to 45.7)
Handle			
Length	23 to 24 inches (0.58 to 0.61 cm)	41 to 42 inches (1.0 to 1.1 cm)	41 to 42 inches (1.0 to 1.1 cm)
Diameter, min.	3/4 inch (1.9 cm)	7/8 inch (2.2 cm)	1 inch (2.5 cm
Extension into broom min.	2 inches (2.1 cm)	4 inches (10.2 cm)	4 inches (10.2 cm)
Ties (twine)			
Number per broom, min.	2	4	5
Distance of 1st from neck	2 to 3-3/8 inch (2.1 to 8.6 cm)	4 to 4-3/4 inches (10.2 to 12.1 cm)	4-1/2 to 6 inches (12.1 to 15.2 cm)
Distance between ties	1/2 to 3/4 inch (1.3 to 1.9 cm)	1/2 to 3/4 inch (1.3 to 1.9 cm)	1/2 to 3/4 inch (1.3 to 1.9 cm)
Stitches per tie	7 to 9	8 to 12	9 to 16
Overall weight per dozen, min.	8 lbs (3.6 kg)	27-1/2 lbs (12.5 kg)	35-1/2 lbs (16.1 kg)

3.8 Workmanship. The finished broom shall be neat, clean, with no stains, discolorations, loose twine, loose wire, or unsecured fibers. The finished broom shall have a balanced appearance with the fibers distributed equally from one side to the other and shall be neatly trimmed with a flat end to the broom body. The brooms shall be free of any defects that affect appearance or may affect serviceability or durability.

3.9 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, provided they fall within the tolerances specified and all other requirements of this document are met.

3.10 Commercial item. The use of the term "commercial item" in this document does not imply that any item or items offered are not required to conform with all requirements specified herein.

4. REGULATORY REQUIREMENTS

4.1 Regulatory requirements. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

5. QUALITY ASSURANCE PROVISIONS

5.1 Product conformance. The products provided shall meet the salient characteristics of this CID, shall conform to the producer's own drawings, specifications, standards, and quality assurance practices, and shall be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance.

6. PACKAGING PACKING AND MARKING

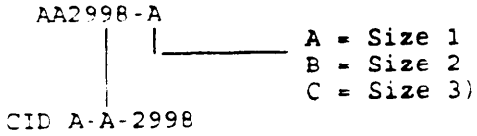

6.1 Packaging, packing and marking. Packaging, packing, and marking shall be as specified in the contract or order.

7. NOTES

7.1 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents:

a. Title, number and date of this commercial item description.
b. Size.
c. The preservation, packing and marking desired.

7.2 Part Identification Number (PIN). The following part identification numbering procedure is for government purposes and does not constitute a requirement for the contractor.

7.3 National Stock Numbers (NSNs): The following is a list of NSN's which reference this CID. The list may not be indicative of all possible NSN's associated with this CID.

NSN	Name	Size	PN
7920-00-292-4371	Broom, Upright (Hearth)	1	AA2998-A
7920-00-292-4375	Broom, Upright (Parlor)	2	AA2998-B
7920-00-291-8305	Broom, Upright (Warehouse)	3	AA2998-C
