COMMERCIAL ITEM DESCRIPTION
DESK TRAY, PLASTIC
(LETTER SIZE)

The General Services Administration, has authorized the use of this commercial item description by all federal agencies.

1. Scope: This Commercial Item Description covers plastic desk trays which are suitable for office use to sort, file, and organize letters and small documents. The tray may be used as a single unit or as a modular unit in a stacked assembly.

2. Salient Characteristics:

2.1. The tray shall fully accommodate at least a 3.8 cm (1-1/2 inch) stack of commercial size letter paper [21.6 cm x 27.9 cm (8-1/2 x 11 inches)] lying flat without folding, crimping, bending, wrinkling, or in any way damaging the paper. Colors provided shall be black or beige as specified in the contract or order.

2.2. The stacking design shall incorporate any interlocking built in or added features. Simple friction fittings are not considered adequate. Any external connecting fixtures shall be included as necessary to stack the trays when a stacked assembly is required. No tools shall be required to stack the trays. When the trays are stacked, the outside bottom of the upper tray shall not be less than 5.4 cm (2-1/8 inches) from the inside of the bottom of the next lower tray. Stacked trays shall be located each directly over the other with no offset.

2.3 A stacked assembly of a minimum of five (5) trays shall not exhibit evidence of deformity, including, but not limited to cracking, bending, warping, or visible stress marks, after testing as prescribed in paragraph 4.3 (performance testing).

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to General Services Administration, Federal Supply Service, Engineering Branch, 26 Federal Plaza, New York, NY 10278.

Check the source to verify that this is the current version before use.

2.4 **Workmanship:** The plastic desk trays shall be free of any defects which may affect appearance or impair serviceability, including, but not limited to, burrs, scratches, rough or sharp edges, blisters, crinkling, warping, and cracks. Minor discolorations, imbedded foreign matter and imperfections due to the use of Post Consumer Recovered Material (polystyrene) will be allowed.

3. **Regulatory Requirements:** The offeror/contractor is encouraged to use recovered materials, to the maximum extent practical, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

3.1 **Certification** The contractor shall certify that if polystyrene is used in the manufacture of this item, it shall contain 25 percent Postconsumer Recovered Materials in accordance with the 40 Code of Federal Regulations Part 247, Comprehensive Guideline for Procurement of Products Containing Recovered Materials; Final Rule. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

4. **Quality Assurance Requirements:**

4.1 **Product Conformance.** The products provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, specifications, standards and quality assurance practices and be the same product offered for sale in the commercial market. The government reserves the right to require proof of such conformance.

4.2 **Examination and Testing.**

4.2.1 Suppliers are encouraged to use quality control (QC) techniques that exhibit control over their processes (e.g. (Statistical Process Control) SPC techniques, as defined in American National Standards Institute (ANSI) Z1.1, Z1.2 and Z1.3/ American Society for Quality Control (ASQC) B.1, B.2 and B.3 that systematically reduce excess variations. If used, objective evidence shall be available that demonstrates overall measurement adequacy techniques and controls. These techniques shall ensure quality levels equal to, or greater than, those cited in applicable technical document or, herein.

4.2.2 End item inspection/testing may be used by the offeror or the Government representative, as a means to determine the effectiveness of the in process quality controls. While in-process controls shall not be substituted for end item performance testing, they may be used when sampling for visual and dimensional conformance.

Check the source to verify that this is the current version before use.

4.2.3 For those characteristics for which there are no such controls, or for end item performance test, lot by lot sampling for inspection/test shall be required. The sample unit shall be one plastic desk tray. Sampling shall be in accordance with the American National Standards Institute (ANSI) / American Society for Quality Control (ASQC) Z1.4, Sampling Procedures and Tables for Inspection by Attributes.

4.2.4 An inspection lot shall consist of all like items submitted for inspection at one time. The inspection level for visual and dimensional sampling shall be S-3 with an AQL of 4.0 percent defective. The inspection level for performance testing shall be S-1 with an AQL of 6.5 percent defective. The supplier must provide objective evidence (tests and inspection records) that the presented material meets the requirements of the sampling plan as indicated above.

4.3 **Performance Tests.** Using a stacked assembly of 5 trays, place a 2.3 kg (5 lb.) stack of commercial size letter paper on top of each of the trays. The assembly shall not collapse or exhibit any visible evidence of swaying. Evaluate the results in accordance with paragraph 2.4.

5. **Packaging:** Preservation, packing and marking shall be as specified in the contract or order.

6. **Notes:**

6.1. **Source of Documents:** The following documents form a part of this commercial item description to the extent specified herein. Unless otherwise indicated, the issue in effect on the date of invitation for bids or request for proposal shall apply:

6.1.1. Federal Acquisition Regulation (FAR) may be obtained from the superintendent of Documents, Government Printing Office, Washington DC, 20402.

6.1.2. ANSI / ASQC Z1.4- may be obtained from the American Society for Quality Control, PO Box 3005, 611 E. Wisconsin Avenue, Milwaukee, Wisconsin 53201-4606.

6.1.3 Copies of 40 Code of Federal Regulations Part 247, Comprehensive Guideline for Procurement of Products Containing Recovered Materials; Final Rule can be obtained by calling the RCRA hotline at 800-424-9346 or Washington DC 703-412-9810 or from Mail Code 5305, US EPA, 401 M Street, SW, Washington, DC 20460.
