MIL-C-81595(AS)
Amendment 1
5 July 1973

MILITARY SPECIFICATION

CARTRIDGE, IMPULSE, MARK 127 MOD 0

This amendment forms a part of Military Specification MIL-C-81595(AS) dated 30 August 1968 and has been approved by the Naval Air Systems Command, Department of the Navy.

Page 6

4.3.2 Preproduction sample. On the third line change the numeral 14 to 28.

Page 8

4.7.5 Leakage. Delete the first sentence and substitute: "Each cartridge in the preproduction and production lots shall be leak tested in a dry gas leak tester." Delete the third and fourth sentences in the paragraph.
