DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE	2. IDENTIFICATION NUMBER
TASK INVENTORY REPORT	DI-ILSS-81152

3. DESCRIPTION/PURPOSE

3.1 This summary is a comprehensive listing of all tasks performed by system personnel to operate and maintain an item. It can be used in workload or task performance analysis to model crew member activities and to create operating scenarios and some maintenance scenarios.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
910328	TM		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the Logistic Support Analysis Record report required by appendix B, paragraph 30.15 of MIL-STD-1388-2B.

7.2 This DID is applicable to the acquisition of military systems and equipment.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		A6060

10. PREPARATION INSTRUCTIONS

10.1 Reference documents. The applicable issue of the documents cited herein, including their approval dates and the dates of any applicable amendments, notices, and revision, shall be specified in the contract.

10.2 Content.

10.2.1 The report shall contain the following information items, either numbered or arranged (e.g., by outline or diagram) to show their relationship to each other:

a. Missions
b. Scenarios/conditions
c. Requirements
d. Jobs
e. Duties
f. Tasks
g. Subtasks
h. Task Elements

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited

Block 10. Preparation Instructions (continued)

10.2.2 The LSA-018 summary contains data on above information items; jobs, duties, tasks, subtasks, and task elements. The source of data appearing on the LSA-018 summary is contained in MIL-STD-1388-2B, Appendix B, Figure 14, LSAR Data Tables to Report Matrix. Data displayed on the LSA-018 summary is not required if the data is not specified on DD Form 1949-1, LSAR Data Selection Sheet, contained in the statement of work.

10.3 Format.

10.3.1 The hierarchical relationship among data items shall be presented. The acquiring activity shall provide the data for Mission and Scenarios/conditions, and the contractor shall provide all other required data items.

10.3.2 The report will be sequenced by ascending Job Code and ascending Duty Codes within each Job. Duty will be printed out left justified on the output and Job will appear in parantheses following Duty. Task Identification will be indented beneath Duty and Job; Subtask Identification will be indented beneath Task Identification; and the Task Element narrative will be indented beneath Subtask Identification (if applicable). An example of this format is shown in Figure 29, Appendix B, MIL-STD-1388-2B.

10.3.3 All tasks, subtasks, and task elements shall be textually represented as task statements. Task statements shall be composed of:

a. an action verb which states what is to be accomplished in the task,

b. an object which identifies what is to be accomplished in the task,

c. any qualifying phrases needed to distinguish the task from related or similar activities, limit and define the scope of the task, and clearly communicate the nature of the task.

10.3.4 Hierarchically related task inventory data shall be numbered accordingly.

10.4 Traceability. The report shall include the name(s) of the individual(s) involved in the development and validation of the task inventory.
