QQ-C-40
INTERIM AMENDMENT-1(NAVY-Ships)
March 9, 1970

INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

CALKING: LEAD WOOL AND LEAD PIG

This interim amendment was developed by the Department of the Navy, Naval Ship Engineering Center, Center Building, Prince George's Center, Hyattsville, Maryland 20782, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above. The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification QQ-C-40 dated April 15, 1963.

4.1: Delete and substitute:

"4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements."

4.3.1, lines 8 and 11: Delete "L-8" and substitute "S-4" respectively.

4.3.1: Add the following: "When Government source inspection is specified in the contract or purchase order, type II calking wool shall be selected in accordance with MIL-STD-105 at inspection III, with an acceptable quality level (AQL) of 2.5 percent defective."
