MIL-S-81941A(AS)
Amendment - 1
6 December 1976

MILITARY SPECIFICATION

SURVIVAL KIT, INDIVIDUAL, AIRMAN'S

This amendment forms a part of Military Specification MIL-S-81941A(AS), dated 9 June 1976, and is approved for use by the Naval Air Systems Command, Department of the Navy, and is available for use by all Departments and Agencies of the Department of Defense.

Pages 5 & 6

3.2.2 Plastic envelope, 1: Change "1/8 inch ± 1/32 inch" to "1/64 inch hole maximum".

Page 10

3.3.2.8 Fire Starter, line 1: Delete "for type II and type IV ax kits".

3.3.2.8.1.1 Add after "Important: Do not stow fire starter after removal from package".

"USE INSTRUCTIONS

(1) Ready - Gather tinder (dry wood shavings, paper, grass, leaves, cloth, bark) and prepare other campfire material in usual manner.

(2) Aim - Use a sharp instrument (knife, sharp rock, glass) to slowly carve small particles of fire starter into concentrated area of tinder.

(3) Fire - Scrape the fire starter fast . . . throwing sparks at concentrated particles. The particles will ignite and start the tinder burning."

Page 18

Add new paragraph "4.6.7 Water test. The components of each kit or packet, in thier sealed plastic envelopes, shall be submerged 6 inches below the surface of the water for 15 minutes. After 15 minutes, no water shall have entered inside the plastic envelope."
