Paragraph 4.5.2.2 Delete in its intirety and substitute the following paragraph.

"4.5.2.2. Feeders. Visually and manually examine each of the following parts and assemblies to determine conformance with the applicable requirements. Each step in the examination shall include a visual examination for proper cleaning and presence of the specified protective coating and to determine the general quality, completeness of manufacture, assembly, clarity and legibility of markings and workmanship. The examination provisions shall be applied at the earliest practical point in manufacture at which it is feasible to inspect for acceptance without risk of change in the characteristic by subsequent operations. Reinspections of these characteristics on the completed product is not required provided assurance exists that the characteristic has not been changed, degraded or damaged by subsequent manufacturing, assembly or handling and that adequate inspection records are maintained. Feeders failing to meet the requirements shall be rejected."
