MILITARY SPECIFICATION

PERISCOPES, TANK: M19 & M24

This amendment forms a part of military specification MIL-P-45637B(MU), dated 11 January 1965, and is approved for use by all departments and agencies of the Department of Defense.

* Paragraph 3.5.3: Delete and substitute:

3.5.3 Ground Potential.- The external parts of the periscope, with the exception of Head Assembly 7688707, shall be at ground potential at all times.

Paragraph 4.1.1: Delete and substitute:

"4.1.1 General provisions.- The component and subassembly inspection requirements of MIL-F-13926 form a part of the quality assurance provisions of this specification. Definitions of inspection terms shall be as listed in MIL-STD-109."

Add new paragraphs as follows:

"4.1.2 First article (initial production) approval.- The requirement for first article approval and the responsibility (Government or contractor) for first article testing shall be as specified in the contract. The sample for first approval tests shall consist of 3 periscopes plus 3 each of all items covered by SQAP. The sample shall be manufactured in the same manner, using the same materials, equipment, processes, and procedures as used in regular production. All parts and materials, including packaging and packing, shall be obtained from the same source of supply as used in regular production.

4.1.2.1 Government testing.- When the Government is responsible for conducting first article approval tests, the contractor, prior to submitting the sample to the Government, shall inspect the sample to insure that it conforms to all the requirements of the contract and submit a record of this inspection with the sample, including certificates of conformance for materials.

4.1.2.2 Contractor testing.- When the contractor is responsible for conducting first article approval tests, the sample shall be inspected by the contractor for all the requirements of the contract. The sample and a record of this inspection, including certificates of conformance for materials, shall be submitted to the Government for approval. The Government reserves the right to witness the contractor's inspection."

Paragraph 4.2.2: Delete and substutute:

"4.2.2 Examinations and tests.- All components and subassemblies shall be inspected in accordance with the inspection provisions contained in Supplementary Quality Assurance Provisions (SQAP) listed in the technical data package (TDP). In the absence of SQAP's, the applicable Quality Assurance Provisions of MIL-F-13926 shall apply. Examination, and tests related to Section 3 herein shall be performed on a single defect (individual characteristic) basis in accordance with MIL-STD-105 and the sampling plans specified in Tables I through IV inclusive. Examination and tests for packaging, packing, and marking shall be in accordance with MIL-P-14232 and Section 5 herein. The tabulated classification of defects in Tables I through IV inclusive shall constitute the minimum inspection to be performed by the supplier after first article approval and prior to Government acceptance or rejection by item or lot."

Paragraph 4.3, above tabulation of control tests insert: "TABLE II".

Paragraph 4.3.1, above tabulation of control tests for electrical requirements, insert: "TABLE III".

Paragraph 4.3.2, above tabulation of control tests for environmental requirements, insert· "TABLE IV".

Paragraph 4.5.7· Delete "F7561204" and substitute "A7561204".

Paragraph 4.5.10 Delete "F7561204" and substitute "A7561204".

* "The margin of this specification is marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous issue were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous issue."
